

The diagram illustrates the relationships between 10 nodes representing different factors influencing meat consumption. The nodes are color-coded: red (T11), green (T6, T16, T20), blue (T1, T18), and purple (T17). Edges are color-coded: orange (stronger) and purple (weaker).

Nodes:

- Meat provides me with protein (T3)
- I have concerns about processed meats (T11)
- I want to feel full and fueled (T16)
- I have considered reducing pork consumption (T1)
- I am on a low-carb diet (T20)
- I eat multiple meat products daily (T18)
- I prefer taste and want to have satiety (T-1)
- I have social contacts (T17)
- I want to have healthy muscle mass (T6)

Relationships (Edges):

- Orange Edges (Stronger):**
 - Meat provides me with protein (T3) to I have concerns about processed meats (T11)
 - Meat provides me with protein (T3) to I have considered reducing pork consumption (T1)
 - Meat provides me with protein (T3) to I eat multiple meat products daily (T18)
 - I have concerns about processed meats (T11) to I have considered reducing pork consumption (T1)
 - I have concerns about processed meats (T11) to I eat multiple meat products daily (T18)
 - I have concerns about processed meats (T11) to I want to have healthy muscle mass (T6)
 - I want to feel full and fueled (T16) to I have considered reducing pork consumption (T1)
 - I am on a low-carb diet (T20) to I eat multiple meat products daily (T18)
- Purple Edges (Weaker):**
 - Meat provides me with protein (T3) to I want to have healthy muscle mass (T6)
 - I have considered reducing pork consumption (T1) to I want to have healthy muscle mass (T6)
 - I have considered reducing pork consumption (T1) to I eat multiple meat products daily (T18)
 - I eat multiple meat products daily (T18) to I want to have healthy muscle mass (T6)
 - I eat multiple meat products daily (T18) to I have social contacts (T17)
 - I have social contacts (T17) to I want to have healthy muscle mass (T6)
 - I have social contacts (T17) to I prefer taste and want to have satiety (T-1)
 - I prefer taste and want to have satiety (T-1) to I want to have healthy muscle mass (T6)
