The diagram illustrates the relationships between 10 variables related to meat consumption. The nodes are represented by colored circles and labeled with text and a time point (T). The connections are represented by lines of different colors (orange and purple).

Nodes:

- My partner has dietary restrictions (T7) (Green circle)
- I advocate for animal rights (T5) (Orange circle)
- I eat beef about once a week (T15) (Red circle)
- I find meal preparation efficiency important (T12) (Red circle)
- I buy humanely certified eggs (T-1) (Blue circle)
- I believe meat is necessary for health (T11) (Green circle)
- I eat chicken several times a week (T-1) (Blue circle)
- I am morally conflicted about eating meat (T0) (Blue circle)
- I try to minimize animal suffering (T5) (Orange circle)

Connections:

- Orange lines connect: My partner has dietary restrictions (T7) to I eat beef about once a week (T15); I advocate for animal rights (T5) to I eat beef about once a week (T15); I eat beef about once a week (T15) to I try to minimize animal suffering (T5); I eat chicken several times a week (T-1) to I try to minimize animal suffering (T5); I am morally conflicted about eating meat (T0) to I try to minimize animal suffering (T5); I find meal preparation efficiency important (T12) to I eat chicken several times a week (T-1); I buy humanely certified eggs (T-1) to I eat chicken several times a week (T-1).
- Purple lines connect: My partner has dietary restrictions (T7) to I find meal preparation efficiency important (T12); I advocate for animal rights (T5) to I find meal preparation efficiency important (T12); I eat beef about once a week (T15) to I find meal preparation efficiency important (T12); I eat beef about once a week (T15) to I believe meat is necessary for health (T11); I find meal preparation efficiency important (T12) to I believe meat is necessary for health (T11); I buy humanely certified eggs (T-1) to I believe meat is necessary for health (T11); I eat chicken several times a week (T-1) to I believe meat is necessary for health (T11); I am morally conflicted about eating meat (T0) to I believe meat is necessary for health (T11); I buy humanely certified eggs (T-1) to I eat chicken several times a week (T-1); I eat chicken several times a week (T-1) to I am morally conflicted about eating meat (T0); I am morally conflicted about eating meat (T0) to I buy humanely certified eggs (T-1).
