

[illegible]

The diagram illustrates a network of five nodes representing different stages of meat consumption reduction. The nodes are: 'I am eating small bites of chicken (T0)' (blue), 'I want protein (T13)' (orange), 'I want healthy hair (T6)' (blue), 'I have been vegetarian for 13 years (T8)' (orange), and 'I do not like meat (T13)' (green). Edges connect the nodes: a purple edge from T0 to T6, a purple edge from T6 to T13 (protein), an orange edge from T6 to T8, an orange edge from T8 to T13 (not like meat), and a purple edge from T0 to T6 (reintroduce meat).
