

```

graph TD
    T0((T0)) ---|thick green| T2((T2))
    T2 ---|thin purple| T6((T6))
    T0 ---|thin purple| T6
  
```

A graph diagram illustrating a network structure. The nodes are labeled T13, T15, T0, T10, and T2. The connections are as follows:

- T13 (green) is connected to T15 (green) and T0 (blue) by thick green lines.
- T15 (green) is connected to T0 (blue) and T10 (orange) by thin purple lines.
- T0 (blue) is connected to T10 (orange) by a thin orange line.
- T2 (light blue) is isolated.
