

The diagram illustrates a network of reasons for meat consumption or avoidance. The nodes are represented by circles of different colors (orange, grey, blue) and are connected by lines of different colors (orange, purple). The nodes include:

- I am in favor of animal rights (T5)
- I eat chicken a few times a week
- I want to eliminate meat from my diet (T7)
- I never eat pork
- I feel moral unease about eating animals (T5)
- I avoid eating intelligent animals (T5)
- I eat beef occasionally
- Family reasons prevent total meat elimination (T1)
- Health reasons prevent total meat elimination
- I share meat-eating habits with my partner

The connections between the nodes are as follows:

- Orange lines (stronger connections):**
 - I am in favor of animal rights (T5) to I want to eliminate meat from my diet (T7)
 - I eat chicken a few times a week to I want to eliminate meat from my diet (T7)
 - I feel moral unease about eating animals (T5) to I want to eliminate meat from my diet (T7)
 - I eat beef occasionally to I want to eliminate meat from my diet (T7)
 - I eat beef occasionally to I feel moral unease about eating animals (T5)
 - Health reasons prevent total meat elimination to I want to eliminate meat from my diet (T7)
 - Health reasons prevent total meat elimination to I feel moral unease about eating animals (T5)
 - Health reasons prevent total meat elimination to I share meat-eating habits with my partner
- Purple lines (weaker connections):**
 - I am in favor of animal rights (T5) to I feel moral unease about eating animals (T5)
 - I am in favor of animal rights (T5) to I avoid eating intelligent animals (T5)
 - I eat chicken a few times a week to I feel moral unease about eating animals (T5)
 - I eat chicken a few times a week to I avoid eating intelligent animals (T5)
 - I eat chicken a few times a week to I share meat-eating habits with my partner
 - I feel moral unease about eating animals (T5) to I avoid eating intelligent animals (T5)
 - I feel moral unease about eating animals (T5) to I share meat-eating habits with my partner
 - I avoid eating intelligent animals (T5) to I share meat-eating habits with my partner
 - I never eat pork to I feel moral unease about eating animals (T5)
 - I never eat pork to I avoid eating intelligent animals (T5)
 - I never eat pork to I share meat-eating habits with my partner
 - I eat beef occasionally to I share meat-eating habits with my partner
 - Family reasons prevent total meat elimination (T1) to I share meat-eating habits with my partner

A graph with three nodes: T1 (blue), T5 (orange), and T7 (orange). T5 and T7 are connected by a purple edge, and T1 and T7 are connected by an orange edge.
