

The diagram illustrates the relationships between 10 nodes representing different reasons for meat consumption or elimination. The nodes are color-coded: blue (T-1), orange (T-5), and green (T-7). The edges represent relationships, with orange edges indicating stronger connections.

Nodes:

- I am in favor of animal rights (T5) [Orange]
- I eat chicken a few times a week (T-1) [Blue]
- I want to eliminate meat from my diet (T7) [Green]
- I never eat pork (T-1) [Blue]
- I feel moral unease about eating animals (T5) [Orange]
- I eat beef occasionally (T-1) [Blue]
- I avoid eating intelligent animals (T5) [Orange]
- Family reasons prevent total meat elimination (T1) [Orange]
- Health reasons prevent total meat elimination (T-1) [Blue]
- I share meat-eating habits with my partner (T-1) [Blue]

Relationships (Edges):

- Strong Relationships (Orange Edges):**
 - I am in favor of animal rights (T5) to I eat chicken a few times a week (T-1)
 - I eat chicken a few times a week (T-1) to I want to eliminate meat from my diet (T7)
 - I feel moral unease about eating animals (T5) to I want to eliminate meat from my diet (T7)
 - I eat beef occasionally (T-1) to I want to eliminate meat from my diet (T7)
 - I eat beef occasionally (T-1) to I avoid eating intelligent animals (T5)
 - Family reasons prevent total meat elimination (T1) to I want to eliminate meat from my diet (T7)
 - Family reasons prevent total meat elimination (T1) to I avoid eating intelligent animals (T5)
 - Health reasons prevent total meat elimination (T-1) to I want to eliminate meat from my diet (T7)
 - Health reasons prevent total meat elimination (T-1) to I avoid eating intelligent animals (T5)
 - I share meat-eating habits with my partner (T-1) to I want to eliminate meat from my diet (T7)
 - I share meat-eating habits with my partner (T-1) to I avoid eating intelligent animals (T5)
- Weak Relationships (Purple Edges):**
 - I am in favor of animal rights (T5) to I feel moral unease about eating animals (T5)
 - I am in favor of animal rights (T5) to I avoid eating intelligent animals (T5)
 - I eat chicken a few times a week (T-1) to I feel moral unease about eating animals (T5)
 - I eat chicken a few times a week (T-1) to I avoid eating intelligent animals (T5)
 - I never eat pork (T-1) to I feel moral unease about eating animals (T5)
 - I never eat pork (T-1) to I avoid eating intelligent animals (T5)
 - I feel moral unease about eating animals (T5) to I avoid eating intelligent animals (T5)
 - I eat beef occasionally (T-1) to I feel moral unease about eating animals (T5)
 - I eat beef occasionally (T-1) to I avoid eating intelligent animals (T5)
 - Family reasons prevent total meat elimination (T1) to I feel moral unease about eating animals (T5)
 - Family reasons prevent total meat elimination (T1) to I avoid eating intelligent animals (T5)
 - Health reasons prevent total meat elimination (T-1) to I feel moral unease about eating animals (T5)
 - Health reasons prevent total meat elimination (T-1) to I avoid eating intelligent animals (T5)
 - I share meat-eating habits with my partner (T-1) to I feel moral unease about eating animals (T5)
 - I share meat-eating habits with my partner (T-1) to I avoid eating intelligent animals (T5)

A graph diagram with four nodes: T-1 (blue), T5 (orange), T1 (orange), and T7 (green). The nodes are connected as follows: T-1 is connected to T5 and T1 by purple lines. T5 is connected to T7 by a green line. T1 is connected to T7 by an orange line.

The diagram illustrates the relationships between 10 variables related to meat consumption. The nodes are represented by colored circles, and the edges are colored lines connecting them.

Nodes:

- My partner has dietary restrictions (T7) (Green)
- I advocate for animal rights (T5) (Orange)
- I eat beef about once a week (T15) (Red)
- I find meal preparation efficiency important (T12) (Red)
- I buy humanely certified eggs (T-1) (Blue)
- I eat chicken several times a week (T-1) (Blue)
- I believe meat is necessary for health (T11) (Green)
- I am morally conflicted about eating meat (T0) (Blue)
- I try to minimize animal suffering (T5) (Orange)

Edges:

- My partner has dietary restrictions (T7) is connected to I advocate for animal rights (T5), I eat beef about once a week (T15), I find meal preparation efficiency important (T12), I buy humanely certified eggs (T-1), I eat chicken several times a week (T-1), I believe meat is necessary for health (T11), I am morally conflicted about eating meat (T0), and I try to minimize animal suffering (T5) by a purple line.
- I advocate for animal rights (T5) is connected to I eat beef about once a week (T15) by an orange line.
- I eat beef about once a week (T15) is connected to I find meal preparation efficiency important (T12) by an orange line.
- I find meal preparation efficiency important (T12) is connected to I buy humanely certified eggs (T-1) by a purple line.
- I buy humanely certified eggs (T-1) is connected to I eat chicken several times a week (T-1) by a purple line.
- I eat chicken several times a week (T-1) is connected to I believe meat is necessary for health (T11) by a purple line.
- I believe meat is necessary for health (T11) is connected to I am morally conflicted about eating meat (T0) by a purple line.
- I am morally conflicted about eating meat (T0) is connected to I try to minimize animal suffering (T5) by a purple line.
