The diagram illustrates a network of nine statements related to vegetarianism, each represented by a colored circle with a number in parentheses. The nodes are connected by orange and purple lines, representing different types of relationships.

Nodes:

- I was vegan for about 20 years (T7) (Green circle)
- I have trouble eating carbohydrates (T6) (Orange circle)
- I eat meat daily (T5) (Orange circle)
- I told people about fake meat products (T0) (Blue circle)
- I am sensitive about animal harm (T8) (Green circle)
- I am concerned about environmental impact (T12) (Red circle)
- I want proper nutrition (T6) (Orange circle)
- I lost significant weight over time (T6) (Orange circle)
- I prefer not to eat meat (T11) (Red circle)

Connections:

- Orange lines:** Connect T7 to T6, T5, T8, T12, and T6. Connect T6 to T5, T8, T12, and T6. Connect T5 to T8, T12, and T6. Connect T0 to T5, T11, and T6. Connect T8 to T12 and T6. Connect T12 to T6. Connect T6 to T6.
- Purple lines:** Connect T7 to T0. Connect T0 to T11. Connect T11 to T6. Connect T6 to T5. Connect T5 to T11. Connect T11 to T8. Connect T8 to T12. Connect T12 to T6. Connect T6 to T6.

```

The diagram illustrates the relationships between 10 statements (T0 to T9) related to meat consumption. The nodes are represented by colored circles, and the connections are represented by lines of different colors.

Nodes and their statements:

- Green nodes:**
 - T7: My sister is a vegetarian (T7)
 - T0: I believe eating less meat helps the environment (T0)
 - T8: I am concerned about animal deaths (T8)
- Blue nodes:**
 - T1: Eating meat is easy and convenient for me (T1)
 - T-1: I usually cook meat at home (T-1)
- Orange nodes:**
 - T0: I think it's healthier to eat less meat (T0)
 - T0: I wish I ate less meat (T0)
- Red node:**
 - T13: I enjoy eating meat (T13)

Connections:

- Orange lines (stronger relationships):**
 - T7 to T1
 - T0 (blue) to T0 (orange)
 - T0 (orange) to T8
 - T0 (orange) to T13
 - T1 to T13
 - T-1 to T13
- Purple lines (weaker relationships):**
 - T0 (blue) to T0 (orange)
 - T0 (orange) to T0 (blue)
 - T0 (orange) to T1
 - T1 to T0 (blue)
 - T1 to T-1
 - T-1 to T1

The graph consists of nine nodes and several edges. The nodes are:

- (T0) I tried a meat-free diet before (blue circle)
- (T7) My sister is vegetarian (green circle)
- (T8) I am an animal lover (green circle)
- (T9) I enjoy the taste of meat (red circle)
- (T10) I believe humans should eat less meat (blue circle)
- (T11) Most social contacts eat meat (orange circle)
- (T12) Eating meat is easier than vegetarian meals (green circle)
- (T13) I eat meat four or five times weekly (orange circle)
- (T14) I am a vegetarian (green circle)

The edges are:

- Blue edges: (T0) to (T7), (T0) to (T8), (T0) to (T10), (T10) to (T11), (T10) to (T12), (T10) to (T13), (T10) to (T14).
- Orange edges: (T9) to (T8), (T9) to (T10), (T9) to (T11), (T9) to (T13), (T11) to (T13), (T11) to (T14), (T12) to (T13), (T12) to (T14), (T13) to (T14).

Wave 1 (stances)

Wave 1 (topics)

Wave 2 (stances)

Wave 2 (topics)

I am concerned about my health (T10)

I eat red meat once a week (T4)

Restaurants promote red meat as special (T4)

Group outings are seen as special occasions (T1)

I stopped eating lunch meats during COVID (T-1)

Community members try to eat less red meat (T4)

I eat fish once a week (T2)

My doctor advises reducing red meat (T4)

Friends share healthy low-meat recipes (T1)

I eat more chicken and turkey (T2)

The diagram illustrates the following nodes and their connections:

- Community values health highly (T1)** (Orange circle) is connected to **I am concerned about health (T10)** (Red circle) by a thick purple line.
- Friends also reduced red meat consumption (T4)** (Green circle) is connected to **I am concerned about health (T10)** (Red circle) by a thick purple line.
- I am concerned about health (T10)** (Red circle) is connected to **I have reduced red meat consumption (T4)** (Green circle) by a thick purple line.
- I am concerned about health (T10)** (Red circle) is connected to **I eat more poultry and less pork (T0)** (Blue circle) by a thick purple line.
- I am concerned about health (T10)** (Red circle) is connected to **I want to reduce inflammation (T10)** (Red circle) by a thick purple line.
- I am concerned about health (T10)** (Red circle) is connected to **I want to manage my weight (T6)** (Red circle) by a thick purple line.
- I am concerned about health (T10)** (Red circle) is connected to **I am concerned about cancer risk (T10)** (Red circle) by a thick purple line.
- I am concerned about health (T10)** (Red circle) is connected to **I have meat-free days each week (T5)** (Green circle) by a thick purple line.
- I am concerned about greenhouse gas emissions (T12)** (Purple circle) is connected to **I eat more poultry and less pork (T0)** (Blue circle) by a thick purple line.
- I eat more poultry and less pork (T0)** (Blue circle) is connected to **I want to reduce inflammation (T10)** (Red circle) by a thick purple line.
- I want to reduce inflammation (T10)** (Red circle) is connected to **I want to manage my weight (T6)** (Red circle) by a thick purple line.
- I want to manage my weight (T6)** (Red circle) is connected to **I am concerned about cancer risk (T10)** (Red circle) by a thick purple line.
- I am concerned about cancer risk (T10)** (Red circle) is connected to **I have meat-free days each week (T5)** (Green circle) by a thick purple line.

The diagram illustrates a network of seven nodes, each representing a statement or attitude, connected by lines of two colors: orange and purple. The nodes are arranged in a roughly circular pattern. The node 'I am obsessed with being a carnivore (T13)' is highlighted with a green background. The connections are as follows:

- Orange lines (stronger or more direct relationships):**
 - 'I avoid stories about animal welfare in meat (T0)' to 'My daughter loves meat (T-1)'
 - 'My daughter loves meat (T-1)' to 'I look for meat deals when shopping (T0)'
 - 'I look for meat deals when shopping (T0)' to 'I am obsessed with being a carnivore (T13)'
 - 'I am obsessed with being a carnivore (T13)' to 'I feel a meal is incomplete without meat (T0)'
 - 'I feel a meal is incomplete without meat (T0)' to 'I eat meat daily (T5)'
 - 'I eat meat daily (T5)' to 'I eat less beef and steak now (T0)'
 - 'I eat less beef and steak now (T0)' to 'I have financial limitations (T-1)'
 - 'I have financial limitations (T-1)' to 'I look for meat deals when shopping (T0)'
- Purple lines (weaker or more indirect relationships):**
 - 'I avoid stories about animal welfare in meat (T0)' to 'I eat meat daily (T5)'
 - 'My daughter loves meat (T-1)' to 'I eat meat daily (T5)'
 - 'I look for meat deals when shopping (T0)' to 'I eat meat daily (T5)'
 - 'I am obsessed with being a carnivore (T13)' to 'I eat meat daily (T5)'

A graph with five nodes: T0 (light blue), T-1 (dark blue), T5 (orange), T13 (green), and T15 (purple). Edges connect T0 to T-1 (green), T0 to T13 (orange), T-1 to T5 (orange), T13 to T5 (purple), and T0 to T5 (green).

The diagram shows the following nodes and their connections:

- Node T13 (Green):** I have a deep desire for meat (T13)
- Node T5 (Orange):** I buy meat most nights (T5)
- Node T1 (Blue):** Well-cooked meat increases enjoyment (T-1)
- Node T1 (Orange):** Social contacts enjoy my well-cooked meat (T1)
- Node T0 (Grey):** I feel a meal is incomplete without meat (T0)

Connections (Edges):

- Green Edges:**
 - T13 to T5
 - T13 to T0
- Orange Edges:**
 - T5 to T1 (Blue)
 - T1 (Orange) to T0
- Purple Edges:**
 - T13 to T1 (Blue)
 - T1 (Blue) to T0
 - T1 (Blue) to T1 (Orange)

A graph with five nodes: T0 (light blue), T1 (orange), T-1 (dark blue), T5 (orange), and T13 (green). The edges are as follows: a thick green line connects T0 and T5; a thick green line connects T0 and T1; a thin purple line connects T1 and T-1; a thin purple line connects T1 and T13; and a thin purple self-loop is on T-1.

The diagram illustrates the relationships between 12 nodes representing different concerns and behaviors related to meat consumption. The nodes are color-coded: blue (T0, T1, T8, T12), orange (T1), green (T12), and grey (T8). Edges are color-coded: purple (T0, T1, T8, T12), orange (T1), and green (T12).

Nodes:

- I think meat prices are too high (T0)
- Most people I know eat meat every meal (T1)
- Social contacts see meat as strength (T1)
- I have stopped buying meat (T-1)
- Negative comments from service workers about not eating meat (T-1)
- I am concerned about environmental impact (T12)
- I am concerned about animal welfare (T8)
- I am reducing animal product consumption (T0)

Edges:

- I think meat prices are too high (T0) is connected to I have stopped buying meat (T-1) by a purple edge.
- I have stopped buying meat (T-1) is connected to Most people I know eat meat every meal (T1) by an orange edge.
- I have stopped buying meat (T-1) is connected to Social contacts see meat as strength (T1) by an orange edge.
- I have stopped buying meat (T-1) is connected to Negative comments from service workers about not eating meat (T-1) by a purple edge.
- I have stopped buying meat (T-1) is connected to I am concerned about animal welfare (T8) by a purple edge.
- I have stopped buying meat (T-1) is connected to I am reducing animal product consumption (T0) by a purple edge.
- Most people I know eat meat every meal (T1) is connected to Social contacts see meat as strength (T1) by an orange edge.
- Social contacts see meat as strength (T1) is connected to Negative comments from service workers about not eating meat (T-1) by a purple edge.
- Negative comments from service workers about not eating meat (T-1) is connected to I am reducing animal product consumption (T0) by an orange edge.
- I am concerned about animal welfare (T8) is connected to I am reducing animal product consumption (T0) by a purple edge.
- I am reducing animal product consumption (T0) is connected to I am concerned about environmental impact (T12) by a green edge.
- I am concerned about environmental impact (T12) is connected to I am concerned about animal welfare (T8) by a green edge.

A network diagram with a central node labeled T-1 (blue circle). T-1 is connected to three other nodes: T0 (light blue circle) to its left, T1 (orange circle) to its upper right, and T12 (green circle) to its lower left. All connections are thick green lines. A small purple node is also visible above T1.

do not buy meat (T12)

I meet nutrition without meat (T0)

My opinions about meat are met with scorn (T0)

Meat is cost prohibitive (T0)

My housemates eat meat at every meal (T1)

Meat is always present in grocery stores (T0)

I am concerned about animal lives (T8)

The diagram illustrates a network of factors influencing meat consumption. The nodes and their connections are as follows:

- Nodes:**
 - Blue nodes:** "I use leftover meat to avoid waste (T-1)", "Some recipes require meat (T0)", "I enjoy the taste of meat (T9)", "Price influences my meat choices (T10)", "Some meals do not need meat (T0)", "I enjoy rice and beans (T14)", "Meat is part of childhood upbringing (T-1)".
 - Orange nodes:** "Friends consider meat essential for meals (T1)", "I do not plan meatless days (T5)".
 - Green node:** "I enjoy the taste of meat (T9)".
- Edges:**
 - Purple edges:** Connect "I use leftover meat to avoid waste (T-1)" to "Some recipes require meat (T0)", "Some recipes require meat (T0)" to "Friends consider meat essential for meals (T1)", "Friends consider meat essential for meals (T1)" to "Meat is part of childhood upbringing (T-1)", "Meat is part of childhood upbringing (T-1)" to "I do not plan meatless days (T5)", "I do not plan meatless days (T5)" to "Some meals do not need meat (T0)", "Some meals do not need meat (T0)" to "I use leftover meat to avoid waste (T-1)".
 - Orange edges:** Connect "Some recipes require meat (T0)" to "I do not plan meatless days (T5)", "I do not plan meatless days (T5)" to "Friends consider meat essential for meals (T1)", "Friends consider meat essential for meals (T1)" to "Price influences my meat choices (T10)", "Price influences my meat choices (T10)" to "Some meals do not need meat (T0)", "Some meals do not need meat (T0)" to "I enjoy the taste of meat (T9)", "I enjoy the taste of meat (T9)" to "I enjoy rice and beans (T14)", "I enjoy rice and beans (T14)" to "Some recipes require meat (T0)".

A graph with 6 nodes and 10 edges. The nodes are labeled T0, T1, T5, T9, T14, and T-1. The nodes are colored: T0 is light blue, T1 is orange, T5 is orange, T9 is green, T14 is red, and T-1 is light blue. The edges are colored: green, orange, or purple. The edges are: (T0, T9) green, (T0, T1) green, (T0, T14) orange, (T0, T-1) purple, (T1, T9) purple, (T1, T14) orange, (T5, T14) purple, (T5, T0) orange, (T9, T-1) purple, and a self-loop on T0 (orange).

The diagram illustrates the relationships between 11 statements related to meat consumption. The nodes are represented by colored circles (green, orange, or blue) and are connected by lines (orange or purple). The statements and their corresponding node colors are:

- I eat meat five to six days weekly (T5) - Orange
- I love the taste and texture of meat (T9) - Green
- Eating meat is accepted in my community (T1) - Orange
- I was raised eating meat (T-1) - Blue
- My family and friends eat a lot of meat (T1) - Orange
- I am aware meat costs can be high (T0) - Blue
- Meat is often affordable or on sale (T0) - Blue
- I eat meatless meals sometimes (T0) - Blue
- I know meatless meals are better for the environment (T0) - Blue
- I aim to not waste meat as respect (T11) - Green

The connections between the nodes are as follows:

- Orange lines (positive or strong relationships):**
 - I eat meat five to six days weekly (T5) to I love the taste and texture of meat (T9)
 - I eat meat five to six days weekly (T5) to Eating meat is accepted in my community (T1)
 - I eat meat five to six days weekly (T5) to I was raised eating meat (T-1)
 - I eat meat five to six days weekly (T5) to My family and friends eat a lot of meat (T1)
 - I eat meat five to six days weekly (T5) to I am aware meat costs can be high (T0)
 - I eat meat five to six days weekly (T5) to Meat is often affordable or on sale (T0)
 - I eat meat five to six days weekly (T5) to I eat meatless meals sometimes (T0)
 - I eat meat five to six days weekly (T5) to I know meatless meals are better for the environment (T0)
 - I eat meat five to six days weekly (T5) to I aim to not waste meat as respect (T11)
 - I love the taste and texture of meat (T9) to Eating meat is accepted in my community (T1)
 - I love the taste and texture of meat (T9) to My family and friends eat a lot of meat (T1)
 - Eating meat is accepted in my community (T1) to My family and friends eat a lot of meat (T1)
 - My family and friends eat a lot of meat (T1) to I eat meatless meals sometimes (T0)
 - My family and friends eat a lot of meat (T1) to I know meatless meals are better for the environment (T0)
 - I am aware meat costs can be high (T0) to Meat is often affordable or on sale (T0)
 - Meat is often affordable or on sale (T0) to I eat meatless meals sometimes (T0)
 - Meat is often affordable or on sale (T0) to I know meatless meals are better for the environment (T0)
 - I eat meatless meals sometimes (T0) to I know meatless meals are better for the environment (T0)
 - I aim to not waste meat as respect (T11) to I know meatless meals are better for the environment (T0)
- Purple lines (negative or weak relationships):**
 - I love the taste and texture of meat (T9) to Eating meat is accepted in my community (T1)
 - I love the taste and texture of meat (T9) to My family and friends eat a lot of meat (T1)
 - Eating meat is accepted in my community (T1) to I am aware meat costs can be high (T0)

 - I am aware meat costs can be high (T0) to I aim to not waste meat as respect (T11)
 - Meat is often affordable or on sale (T0) to I aim to not waste meat as respect (T11)
 - I eat meatless meals sometimes (T0) to I aim to not waste meat as respect (T11)
 - I know meatless meals are better for the environment (T0) to I aim to not waste meat as respect (T11)

A graph with nodes T0, T1, T5, T9, T-1, and T11. T0 is a central blue node with a self-loop. T1 is an orange node with a self-loop. T5 is an orange node, T9 is a green node, T-1 is a blue node, and T11 is a green node. Edges connect T0 to T1, T5, T9, T-1, and T11. There are also edges between T1 and T5, T1 and T9, and T5 and T-1. The edges are colored purple, green, or orange.

Figure 1 is a network diagram illustrating the relationships between 12 statements related to vegetarianism. The statements are arranged in a circular pattern, and lines connect them to show relationships. The statements are:

- I choose healthy meals (T0)
- Friends were vegetarians as teenagers (T7)
- Healthy eating is valued by social contacts (T1)
- I eat meat on occasion (T0)
- I was curious about being vegetarian (T7)
- I experimented with vegetarianism as a teenager (T7)
- I like vegetarian meals (T7)
- I prefer small portions of meat (T0)
- I occasionally eat meat (T1)
- People close to me eat meat (T1)
- I eat meat on occasion (T0)

The diagram shows a complex web of relationships between these statements, with some statements having multiple connections. The connections are represented by lines of varying thickness, indicating the strength or type of relationship. The statements are color-coded: blue for T0, green for T7, and light blue for T1.

A diagram illustrating a graph structure with three nodes: T0, T1, and T7. Node T0 is a blue circle, and node T1 is a light blue circle. They are connected by a thick purple line. Node T7 is a green circle and is not connected to the other two nodes.

Vegetarian meals can be healthy and interesting (T6)

Meat is an easy way to get protein (T6)

I eat meat most days (T5)

I have eaten less meat in the past (T0)

I eat lots of fruits and vegetables, low-carb, low-nutritional foods (T6)

I eat lots of fruits and vegetables, high carb, low-nutritional foods (T6)

Social contacts care about health (T12)

Social contacts care about the environment (T12)

A scatter plot showing the relationship between the number of nodes in a tree (n) and the number of nodes in the root (r). The x-axis is labeled n and ranges from 0 to 14. The y-axis is labeled r and ranges from 0 to 14. Data points are labeled T_0 through T_{14} . A path is highlighted with a thick purple line connecting T_7 , T_6 , and T_{14} . The points are colored: T_7 is green, T_6 is green, T_{14} is red, T_3 is orange, T_5 is orange, T_0 is blue, T_1 is light blue, and T_{12} is red.

    T4 ---|green| T2((T2))
    T4 ---|green| T3((T3))

```

The diagram illustrates a network of five nodes representing different levels of meat consumption reduction. The nodes are connected by lines, indicating relationships or transitions between them. The nodes are labeled as follows:

- I focus on reducing meat consumption (T0)** (Blue node)
- I eat less meat generally (T1)** (Green node)
- I limit my meat consumption if it leads to the cost of beef (T4)** (Green node)
- Healthier (T5)** (Green node)
- I try to avoid beef (T11)** (Red node)

The connections between the nodes are as follows:

- T0** is connected to **T1**, **T4**, **T5**, and **T11**.
- T1** is connected to **T0** and **T4**.
- T4** is connected to **T0**, **T1**, and **T5**.
- T5** is connected to **T0**, **T4**, and **T11**.
- T11** is connected to **T0** and **T5**.

A diagram illustrating a sequence of nodes connected by a thick purple line. The nodes are labeled T0, T4, T6, and T11. T0 is a blue circle, T4 is a green circle, T6 is a green circle, and T11 is a red circle. The nodes are arranged horizontally, with T0 and T4 overlapping. The connections are as follows: T0 to T4, T4 to T6, and T6 to T11.

I do not like red meat texture (T4)

I do not like red meat taste (T4)

My husband prefers red meat (T4)

Red meat is unhealthy (T4)

I avoid red meat (T4)

I mainly eat chicken or fish (T2)

I wish more people would stop eating red meat (T4)

I enjoy vegetables and salads (T14)

Chicken and fish are more versatile (T2)

A diagram illustrating a vertical sequence of three nodes. The top node is labeled T4 and is orange. Below it is a node labeled T14, also orange. The bottom node is labeled T2 and is blue. The nodes are connected by a thick purple line. A small green circle is positioned above the T4 node.

The diagram illustrates a network of 10 statements related to meat consumption, with nodes colored blue or orange and connected by purple lines. A green line connects 'I like to try new foods (T14)' and 'I prefer chicken and fish (T2)'.

Statements and their connections:

- I like to try new foods (T14)** (orange) is connected to **I prefer chicken and fish (T2)** (blue) by a green line, and to **I find typical meat diet boring (T-1)** (blue) by a purple line.
- I prefer chicken and fish (T2)** (blue) is connected to **I avoid eating red meat (T4)** (orange) by a purple line.
- I find typical meat diet boring (T-1)** (blue) is connected to **I avoid eating red meat (T4)** (orange) by a purple line.
- I believe red meat is unhealthy (T4)** (orange) is connected to **I avoid eating red meat (T4)** (orange) by a purple line.
- I heard red meat increases aggression (T4)** (orange) is connected to **I avoid eating red meat (T4)** (orange) by a purple line.
- I avoid eating red meat (T4)** (orange) is connected to **I feel unwell after eating red meat (T4)** (orange) by a purple line.
- I feel unwell after eating red meat (T4)** (orange) is connected to **I find cooking red meat disgusting (T4)** (orange) by a purple line.
- I find cooking red meat disgusting (T4)** (orange) is connected to **I avoid eating red meat (T4)** (orange) by a purple line.

A graph with four nodes: T14 (orange), T2 (light blue), T-1 (dark blue), and T4 (orange). Edges connect T14 to T2 (green), T14 to T-1 (purple), T-1 to T4 (purple), and T2 to T4 (purple).

The diagram illustrates a network of 10 nodes representing factors influencing meat consumption. The nodes are:

- Green nodes (T4):**
 - My social circle eats red meat regularly (T4)
 - I prefer chicken and pork to red meat (T4)
 - My social circle prefers red meat (T4)
 - I eat minimal red meat (T4)
- Orange nodes (T2, T14):**
 - I buy chicken and pork (T2)
 - I am happy with a plant based diet (T14)
- Blue nodes (T0, T1, T11):**
 - I think food origin is important (T0)
 - I am aware of beef's carbon footprint (T0)
 - I have budget considerations (T1-1)
 - I buy meat on sale (T0)

Connections between nodes:

- Thick orange lines (Primary connections):**
 - My social circle eats red meat regularly (T4) to I buy chicken and pork (T2)
 - I buy chicken and pork (T2) to I am happy with a plant based diet (T14)
 - I am happy with a plant based diet (T14) to My social circle prefers red meat (T4)
 - My social circle prefers red meat (T4) to I eat minimal red meat (T4)
- Thin purple lines (Secondary connections):**
 - I think food origin is important (T0) to I am aware of beef's carbon footprint (T0)
 - I am aware of beef's carbon footprint (T0) to I buy chicken and pork (T2)
 - I buy chicken and pork (T2) to I have budget considerations (T1-1)
 - I have budget considerations (T1-1) to I buy meat on sale (T0)
 - I buy meat on sale (T0) to I eat minimal red meat (T4)
 - I eat minimal red meat (T4) to I am happy with a plant based diet (T14)
 - I am happy with a plant based diet (T14) to I think food origin is important (T0)
 - I think food origin is important (T0) to My social circle eats red meat regularly (T4)
 - My social circle eats red meat regularly (T4) to I eat minimal red meat (T4)

A graph diagram illustrating a network structure. The nodes are labeled T0, T1, T2, T4, and T14. T0 is light blue, T1 is dark blue, T2 is orange, T4 is green, and T14 is purple. The edges connect T0 to T1, T0 to T2, T0 to T4, T1 to T4, T2 to T4, and T4 to T14. The edge between T0 and T2 is highlighted in green.

The diagram illustrates the relationships between 12 statements related to meat consumption. The nodes are colored green, orange, or blue, and the edges are colored orange or purple. The statements and their connections are as follows:

- Green Nodes:**
 - I am curious about environmental impact (T12)
 - Environmental concerns make me sad (T12)
 - I enjoy the taste of meat (T9)
- Orange Nodes:**
 - I am used to eating meat (T0)
 - Most friends have similar meat-eating habits (T1)
 - My family eats meat at every meal (T1)
 - I eat meat at every meal (T0)
 - Eating meat gives me energy (T0)
 - I get protein from meat (T3)
- Blue Nodes:**
 - I prepare meat-based meals for my family (T-1)
 - Meat gives me energy (T0)

The connections between the nodes are as follows:

- Orange Edges:**
 - I am curious about environmental impact (T12) to Environmental concerns make me sad (T12)
 - Environmental concerns make me sad (T12) to I am used to eating meat (T0)
 - Environmental concerns make me sad (T12) to Most friends have similar meat-eating habits (T1)
 - Environmental concerns make me sad (T12) to I enjoy the taste of meat (T9)
 - Environmental concerns make me sad (T12) to I prepare meat-based meals for my family (T-1)
 - Environmental concerns make me sad (T12) to My family eats meat at every meal (T1)
 - Environmental concerns make me sad (T12) to I eat meat at every meal (T0)
 - Environmental concerns make me sad (T12) to Eating meat gives me energy (T0)
 - Environmental concerns make me sad (T12) to I get protein from meat (T3)
 - I am used to eating meat (T0) to Most friends have similar meat-eating habits (T1)
 - I am used to eating meat (T0) to I prepare meat-based meals for my family (T-1)
 - I am used to eating meat (T0) to My family eats meat at every meal (T1)
 - I am used to eating meat (T0) to I eat meat at every meal (T0)
 - I am used to eating meat (T0) to Eating meat gives me energy (T0)

```

The graph consists of 10 nodes and 15 edges. The nodes are:

- I enjoy eating meat (T13) (Red)
- I eat meat with every meal (T0) (Blue)
- I was raised eating meat (T-1) (Blue)
- My parents taught me meat is important (T-1) (Blue)
- My family eats meat like I do (T1) (Orange)
- Meat gives me a boost of energy (T0) (Blue)
- Meat is a source of protein (T3) (Orange)
- Morning sickness made me eat less meat (T0) (Blue)
- I crave meat (T-1) (Blue)

The edges are:

- Orange edges: (I enjoy eating meat (T13), I eat meat with every meal (T0)), (I eat meat with every meal (T0), I was raised eating meat (T-1)), (I was raised eating meat (T-1), My parents taught me meat is important (T-1)), (My parents taught me meat is important (T-1), My family eats meat like I do (T1)), (My family eats meat like I do (T1), Meat gives me a boost of energy (T0)), (Meat gives me a boost of energy (T0), Meat is a source of protein (T3)), (Meat is a source of protein (T3), I enjoy eating meat (T13)), (I enjoy eating meat (T13), I eat meat with every meal (T0)), (I eat meat with every meal (T0), I crave meat (T-1)), (I was raised eating meat (T-1), I crave meat (T-1)), (My parents taught me meat is important (T-1), I crave meat (T-1)), (Meat gives me a boost of energy (T0), I crave meat (T-1)), (Morning sickness made me eat less meat (T0), I crave meat (T-1)), (Morning sickness made me eat less meat (T0), Meat gives me a boost of energy (T0)), (Morning sickness made me eat less meat (T0), Meat is a source of protein (T3)).
- Purple edges: (I enjoy eating meat (T13), I was raised eating meat (T-1)), (I eat meat with every meal (T0), I was raised eating meat (T-1)), (I was raised eating meat (T-1), My family eats meat like I do (T1)), (My family eats meat like I do (T1), Meat gives me a boost of energy (T0)), (Meat gives me a boost of energy (T0), Meat is a source of protein (T3)), (Meat is a source of protein (T3), I enjoy eating meat (T13)), (I enjoy eating meat (T13), I eat meat with every meal (T0)), (I eat meat with every meal (T0), I crave meat (T-1)), (I was raised eating meat (T-1), I crave meat (T-1)), (My parents taught me meat is important (T-1), I crave meat (T-1)), (Meat gives me a boost of energy (T0), I crave meat (T-1)), (Morning sickness made me eat less meat (T0), I crave meat (T-1)), (Morning sickness made me eat less meat (T0), Meat gives me a boost of energy (T0)), (Morning sickness made me eat less meat (T0), Meat is a source of protein (T3)).

A graph diagram with five nodes: T0 (light blue), T1 (orange), T3 (orange), T-1 (blue), and T13 (red). T0 is at the bottom, connected to T1 and T3 by purple lines. T1 and T3 are connected by a purple line. T-1 is connected to T0 by a thick green line. T13 is connected to T-1 by a thick green line. T0 is also connected to T13 by a thick green line. There is an orange ring around T0.
