The diagram illustrates the relationships between 10 statements (T0 to T9) related to meat consumption. The nodes are represented by colored circles, and the edges are colored lines.

**Nodes and their statements:**

- T7 (Green):** My sister is a vegetarian (T7)
- T0 (Blue):** I believe eating less meat helps the environment (T0)
- T1 (Orange):** Eating meat is easy and convenient for me (T0)
- T13 (Red):** I enjoy eating meat (T13)
- T0 (Blue):** I wish I ate less meat (T0)
- T0 (Blue):** I believe eating less meat helps the environment (T0)
- T8 (Green):** I am concerned about animal deaths (T8)
- T0 (Blue):** I think it's healthier to eat less meat (T0)
- T-1 (Blue):** I usually cook meat at home (T-1)
- T1 (Orange):** Most people around me eat meat (T1)

**Relationships (Edges):**

- Orange Edges:**
  - T7 to T1
  - T1 to T13
  - T13 to T0 (I wish I ate less meat)
  - T13 to T0 (I believe eating less meat helps the environment)
  - T13 to T8
  - T13 to T0 (I think it's healthier to eat less meat)
- Purple Edges:**
  - T1 to T0 (I believe eating less meat helps the environment)
  - T0 (I wish I ate less meat) to T0 (I believe eating less meat helps the environment)
  - T0 (I wish I ate less meat) to T0 (I think it's healthier to eat less meat)
  - T0 (I wish I ate less meat) to T8
  - T0 (I believe eating less meat helps the environment) to T0 (I think it's healthier to eat less meat)
  - T0 (I believe eating less meat helps the environment) to T-1
  - T-1 to T13

The graph consists of nine nodes and several edges. The nodes are:

- (T0) I tried a meat-free diet before (blue circle)
- (T7) My sister is vegetarian (green circle)
- (T8) I am an animal lover (green circle)
- (T9) I enjoy the taste of meat (red circle)
- (T10) I believe humans should eat less meat (blue circle)
- (T11) Most social contacts eat meat (orange circle)
- (T15) I eat meat four or five times weekly (orange circle)
- (T7) Eating meat is easier than vegetarian meals (green circle)
- (T7) I am a vegetarian (green circle)

The edges connect the nodes as follows:

- (T0) to (T7) [My sister is vegetarian]
- (T0) to (T8) [I am an animal lover]
- (T0) to (T10) [I believe humans should eat less meat]
- (T0) to (T9) [I enjoy the taste of meat]
- (T7) [My sister is vegetarian] to (T10) [I believe humans should eat less meat]
- (T8) [I am an animal lover] to (T10) [I believe humans should eat less meat]
- (T8) to (T9) [I enjoy the taste of meat]
- (T8) to (T11) [Most social contacts eat meat]
- (T8) to (T15) [I eat meat four or five times weekly]
- (T9) [I enjoy the taste of meat] to (T10) [I believe humans should eat less meat]
- (T9) to (T11) [Most social contacts eat meat]
- (T9) to (T15) [I eat meat four or five times weekly]
- (T10) [I believe humans should eat less meat] to (T11) [Most social contacts eat meat]
- (T10) to (T15) [I eat meat four or five times weekly]
- (T11) [Most social contacts eat meat] to (T15) [I eat meat four or five times weekly]
- (T11) to (T7) [Eating meat is easier than vegetarian meals]
- (T15) [I eat meat four or five times weekly] to (T7) [Eating meat is easier than vegetarian meals]
- (T15) to (T7) [I am a vegetarian]

The diagram illustrates a network of beliefs and behaviors related to meat consumption. The nodes and their connections are as follows:

- Nodes:**
  - T8:** I am sad about animal treatment on large farms (Green circle)
  - T1:** My community farms and hunts meat (Orange circle)
  - T0:** My mom eats less meat now (Blue circle)
  - T-1:** Meat-eating is ingrained in our behavior (Blue circle)
  - T5:** I eat meat daily (Orange circle)
  - T0:** I eat less meat than most people (Blue circle)
  - T-1:** I was brought up eating meat (Blue circle)
  - T1:** Multiple friends eat less meat now (Orange circle)
- Connections:**
  - Orange lines:** T8 to T1, T8 to T5, T1 to T5, T5 to T0 (I eat less meat than most people).
  - Purple lines:** T1 to T-1, T-1 to T0 (I eat less meat than most people), T-1 to T0 (I was brought up eating meat), T-1 to T1 (Multiple friends eat less meat now).
  - Green line:** T8 to T-1.

The diagram illustrates the relationships between 10 statements (nodes) related to meat consumption and animal welfare. The nodes are represented by colored circles and connected by lines of different colors.

**Nodes:**

- Blue nodes (T0, T1, T5):**
  - I have concerns about the farming practices (T0)
  - Meat eating is normal in my family (T1)
  - I eat meat daily (T5)
- Orange nodes (T1, T1):**
  - Some family and friends eat less meat (T1)
  - Eating meat is a rural tradition (T1)
- Green nodes (T8):**
  - I am concerned about animal welfare (T8)

**Connections:**

- Purple lines:**
  - Some family and friends eat less meat (T1) to I have concerns about the farming practices (T0)
  - Meat eating is normal in my family (T1) to I have concerns about the farming practices (T0)
  - Meat eating is normal in my family (T1) to I eat meat daily (T5)
  - I am concerned about animal welfare (T8) to I eat meat daily (T5)
  - I pay attention to meat sourcing (T0) to I am concerned about animal welfare (T8)
- Orange line:**
  - I eat meat daily (T5) to Eating meat is a rural tradition (T1)

A graph with four nodes: T0 (light blue), T1 (orange), T5 (orange), and T8 (green). Edges connect T0 to T1 (green), T0 to T5 (purple), and T5 to T8 (orange). There is also a direct orange edge from T0 to T8.

Wave 2 (topics)

My family ate healthy overall (T1)

Red meat was expensive growing up (T9)

We ate fish every Friday for religious reasons (T2)

I think red meat uses too many resources (T8)

I have health concerns about red meat (T4)

Local meat is too expensive for me (T7)

I have environmental concerns about red meat (T3)

I often choose chicken or fish instead (T5)

I try to reduce red meat (T6)

I ate red meat because of religious reasons (T10)

A graph with five nodes: T0 (blue), T1 (light blue), T2 (orange), T3 (light orange), and T4 (orange). Edges connect T0 to T4 (orange), T1 to T4 (purple), T2 to T4 (green), and T3 to T4 (light orange).

Figure 1 is a network diagram illustrating the relationships between 12 items related to meat consumption and environmental concern. The items are represented as nodes (colored circles) and are connected by orange lines (edges). The nodes are: T1 (light blue), T12 (red), T10 (dark blue), T6 (green), T4 (orange), T18 (green), T11 (green), and T14 (orange). The connections are: T1 to T12, T10, and T6; T12 to T10, T6, and T4; T10 to T6 and T4; T6 to T4 and T18; T4 to T18 and T14; T18 to T14; T11 to T12, T10, T6, and T4; and T14 to T12, T10, T6, and T4.

The graph consists of 8 nodes and 10 edges. The nodes are labeled T0, T1, T2, T4, T6, T8, T10, and T12. The nodes are colored as follows: T0, T1, T2, and T12 are blue; T4 and T6 are green; T8 and T10 are orange. The edges are colored as follows: (T0, T1), (T1, T2), (T2, T4), (T4, T6), (T6, T1), (T1, T8), (T8, T10), (T10, T4), (T4, T12), and (T12, T10) are orange; (T0, T6), (T1, T1), (T1, T4), (T6, T8), and (T8, T1) are blue.

The diagram illustrates the relationships between 10 nodes representing different factors influencing meat consumption. The nodes are color-coded and connected by edges of different colors.

**Nodes:**

- Blue nodes (T-1, T-9, T-14):**
  - I use leftover meat to avoid waste (T-1)
  - I enjoy the taste of meat (T-9)
  - Some meals do not need meat (T-14)
- Green node (T-10):**
  - Some recipes require meat (T-10)
- Orange node (T-1):**
  - Friends consider meat essential for meals (T-1)
- Red node (T-5):**
  - I do not plan meatless days (T-5)

**Edges:**

- Purple edges (T-1, T-9, T-14):**
  - I use leftover meat to avoid waste (T-1) to I enjoy the taste of meat (T-9)
  - I use leftover meat to avoid waste (T-1) to Some recipes require meat (T-10)
  - I use leftover meat to avoid waste (T-1) to Friends consider meat essential for meals (T-1)
  - I use leftover meat to avoid waste (T-1) to Some meals do not need meat (T-14)
  - I use leftover meat to avoid waste (T-1) to I do not plan meatless days (T-5)
  - I enjoy the taste of meat (T-9) to Friends consider meat essential for meals (T-1)
  - I enjoy the taste of meat (T-9) to Some meals do not need meat (T-14)
  - I enjoy the taste of meat (T-9) to I do not plan meatless days (T-5)
  - Some recipes require meat (T-10) to Friends consider meat essential for meals (T-1)
  - Some recipes require meat (T-10) to Some meals do not need meat (T-14)
  - Some recipes require meat (T-10) to I do not plan meatless days (T-5)
  - Friends consider meat essential for meals (T-1) to Some meals do not need meat (T-14)
  - Friends consider meat essential for meals (T-1) to I do not plan meatless days (T-5)
  - Some meals do not need meat (T-14) to I do not plan meatless days (T-5)
- Orange edges (T-10, T-5):**
  - Some recipes require meat (T-10) to I do not plan meatless days (T-5)
  - I do not plan meatless days (T-5) to Friends consider meat essential for meals (T-1)
  - I do not plan meatless days (T-5) to Some meals do not need meat (T-14)

A graph with 6 nodes and 10 edges. The nodes are labeled T0, T1, T5, T9, T14, and T-1. The nodes are colored: T0 (orange), T1 (orange), T5 (orange), T9 (green), T14 (red), and T-1 (red). The edges are colored: green, orange, or purple. The edges are: (T0, T9) green, (T0, T1) orange, (T0, T14) orange, (T0, T-1) purple, (T0, T5) purple, (T1, T9) purple, (T1, T14) orange, (T1, T-1) purple, (T14, T5) purple, and a self-loop on T0 (orange).

The diagram illustrates the relationships between 11 statements related to meat consumption. The nodes are categorized by color: orange (T1), blue (T0), and green (T9, T11). The edges are colored purple or orange, representing different types of relationships.

**Nodes and their categories:**

- Orange nodes (T1):**
  - I eat meat five to six days weekly (T5)
  - Eating meat is accepted in my community (T1)
  - My family and friends eat a lot of meat (T1)
- Blue nodes (T0):**
  - I was raised eating meat (T-1)
  - I am aware meat costs can be high (T0)
  - Meat is often affordable or on sale (T0)
  - I eat meatless meals sometimes (T0)
  - I know meatless meals are better for the environment (T0)
- Green nodes (T9, T11):**
  - I love the taste and texture of meat (T9)
  - I aim to not waste meat as respect (T11)

**Relationships (Edges):**

- Purple edges (representing T9 relationships):**
  - I eat meat five to six days weekly (T5) to I love the taste and texture of meat (T9)
  - I eat meat five to six days weekly (T5) to Eating meat is accepted in my community (T1)
  - I eat meat five to six days weekly (T5) to My family and friends eat a lot of meat (T1)
  - I eat meat five to six days weekly (T5) to I was raised eating meat (T-1)
  - I eat meat five to six days weekly (T5) to I am aware meat costs can be high (T0)
  - I eat meat five to six days weekly (T5) to Meat is often affordable or on sale (T0)
  - I eat meat five to six days weekly (T5) to I eat meatless meals sometimes (T0)
  - I eat meat five to six days weekly (T5) to I know meatless meals are better for the environment (T0)
  - I eat meat five to six days weekly (T5) to I aim to not waste meat as respect (T11)
  - I love the taste and texture of meat (T9) to Eating meat is accepted in my community (T1)
  - I love the taste and texture of meat (T9) to My family and friends eat a lot of meat (T1)
  - I love the taste and texture of meat (T9) to I was raised eating meat (T-1)
  - I love the taste and texture of meat (T9) to I am aware meat costs can be high (T0)
  - I love the taste and texture of meat (T9) to Meat is often affordable or on sale (T0)
  - I love the taste and texture of meat (T9) to I eat meatless meals sometimes (T0)
  - I love the taste and texture of meat (T9) to I know meatless meals are better for the environment (T0)
  - I love the taste and texture of meat (T9) to I aim to not waste meat as respect (T11)
  - Eating meat is accepted in my community (T1) to My family and friends eat a lot of meat (T1)
  - Eating meat is accepted in my community (T1) to I was raised eating meat (T-1)
  - Eating meat is accepted in my community (T1) to I am aware meat costs can be high (T0)
  - Eating meat is accepted in my community (T1) to Meat is often affordable or on sale (T0)
  - Eating meat is accepted in my community (T1) to I eat meatless meals sometimes (T0)
  - Eating meat is accepted in my community (T1) to I know meatless meals are better for the environment (T0)
  - Eating meat is accepted in my community (T1) to I aim to not waste meat as respect (T11)
  - My family and friends eat a lot of meat (T1) to I was raised eating meat (T-1)
  - My family and friends eat a lot of meat (T1) to I am aware meat costs can be high (T0)
  - My family and friends eat a lot of meat (T1) to Meat is often affordable or on sale (T0)
  - My family and friends eat a lot of meat (T1) to I eat meatless meals sometimes (T0)
  - My family and friends eat a lot of meat (T1) to I know meatless meals are better for the environment (T0)
  - My family and friends eat a lot of meat (T1) to I aim to not waste meat as respect (T11)
  - I was raised eating meat (T-1) to I am aware meat costs can be high (T0)
  - I was raised eating meat (T-1) to Meat is often affordable or on sale (T0)
  - I was raised eating meat (T-1) to I eat meatless meals sometimes (T0)
  - I was raised eating meat (T-1) to I know meatless meals are better for the environment (T0)
  - I was raised eating meat (T-1) to I aim to not waste meat as respect (T11)
  - I am aware meat costs can be high (T0) to Meat is often affordable or on sale (T0)
  - I am aware meat costs can be high (T0) to I eat meatless meals sometimes (T0)
  - I am aware meat costs can be high (T0) to I know meatless meals are better for the environment (T0)
  - I am aware meat costs can be high (T0) to I aim to not waste meat as respect (T11)
  - Meat is often affordable or on sale (T0) to I eat meatless meals sometimes (T0)
  - Meat is often affordable or on sale (T0) to I know meatless meals are better for the environment (T0)
  - Meat is often affordable or on sale (T0) to I aim to not waste meat as respect (T11)
  - I eat meatless meals sometimes (T0) to I know meatless meals are better for the environment (T0)
  - I eat meatless meals sometimes (T0) to I aim to not waste meat as respect (T11)
  - I know meatless meals are better for the environment (T0) to I aim to not waste meat as respect (T11)
- Orange edges (representing T0 relationships):**
  - I eat meat five to six days weekly (T5) to I aim to not waste meat as respect (T11)
  - Eating meat is accepted in my community (T1) to I aim to not waste meat as respect (T11)
  - My family and friends eat a lot of meat (T1) to I aim to not waste meat as respect (T11)
  - I was raised eating meat (T-1) to I aim to not waste meat as respect (T11)
  - I am aware meat costs can be high (T0) to I aim to not waste meat as respect (T11)
  - Meat is often affordable or on sale (T0) to I aim to not waste meat as respect (T11)
  - I eat meatless meals sometimes (T0) to I aim to not waste meat as respect (T11)
  - I know meatless meals are better for the environment (T0) to I aim to not waste meat as respect (T11)

A graph with 6 nodes (T0, T1, T5, T9, T11, T1) and 10 edges. Nodes T0 and T1 are blue, T5 and T9 are orange, and T11 and T1 are green. Edges are colored green or purple. The graph shows a complex network of connections between the nodes.

The diagram illustrates the following nodes and their connections:

- Red Node (T8):** "I am concerned about animal welfare (T8)"
- Orange Node (T12):** "I am concerned about environmental impact (T12)"
- Green Node (T5):** "I encourage meatless days (T5)"
- Blue Node (T1):** "I crave meat during my follicular phase (T-1)"
- Blue Node (T1):** "I eat meat daily (T1)"
- Blue Node (T1):** "I live with my boyfriend (T-1)"
- Purple Node (T3):** "I want more protein for athletic needs (T3)"
- Purple Node (T6):** "I want to avoid weight loss (T6)"
- Purple Node (T1):** "My boyfriend prefers meals with meat (T-1)"

Connections (Edges) are as follows:

- Red (T8) to:** Orange (T12), Green (T5), Blue (T1), Purple (T3), Purple (T6), Blue (T1), Purple (T1).
- Orange (T12) to:** Red (T8), Green (T5), Blue (T1), Purple (T3), Purple (T6), Blue (T1), Purple (T1).
- Green (T5) to:** Red (T8), Orange (T12), Blue (T1), Purple (T3), Purple (T6), Blue (T1), Purple (T1).
- Blue (T1) to:** Red (T8), Orange (T12), Green (T5), Purple (T3), Purple (T6), Blue (T1), Purple (T1).
- Blue (T1) to:** Red (T8), Orange (T12), Green (T5), Purple (T3), Purple (T6), Blue (T1), Purple (T1).
- Blue (T1) to:** Red (T8), Orange (T12), Green (T5), Purple (T3), Purple (T6), Blue (T1), Purple (T1).

A network diagram illustrating the relationships between various factors influencing meat consumption. The nodes are represented by colored circles with text labels, and they are connected by purple lines. The nodes include:

- I am more aware of others' preferences (T-1)
- My roommate rarely eats meat (T1)
- I feel self conscious eating beef with my roommate (T-1)
- I limit meat consumption for financial reasons (T0)
- I eat mainly fish, shrimp, or chicken (T2)
- I switch to poultry for burgers (T2)
- I eat less red meat (T4)
- I learned about cattle resource use (T0)
- I am concerned about environmental impact (T12)
- I am more aware of others' preferences (T-1)

The connections between the nodes are as follows:

- I am more aware of others' preferences (T-1) is connected to My roommate rarely eats meat (T1), I feel self conscious eating beef with my roommate (T-1), and I am concerned about environmental impact (T12).
- My roommate rarely eats meat (T1) is connected to I feel self conscious eating beef with my roommate (T-1).
- I feel self conscious eating beef with my roommate (T-1) is connected to I limit meat consumption for financial reasons (T0).
- I limit meat consumption for financial reasons (T0) is connected to I eat mainly fish, shrimp, or chicken (T2) and I eat less red meat (T4).
- I eat mainly fish, shrimp, or chicken (T2) is connected to I switch to poultry for burgers (T2) and I eat less red meat (T4).
- I switch to poultry for burgers (T2) is connected to I eat less red meat (T4).
- I eat less red meat (T4) is connected to I learned about cattle resource use (T0).
- I learned about cattle resource use (T0) is connected to I am concerned about environmental impact (T12).

The diagram illustrates a graph structure with six nodes: T0, T1, T-1, T4, T2, and T12. The nodes are represented as colored circles with black outlines. The connections are as follows:

- A thick purple line connects T2 (orange) to T4 (green).
- A thick purple line connects T4 (green) to T0 (light blue).
- A thick purple line connects T0 (light blue) to T-1 (dark blue).
- A thick purple line connects T-1 (dark blue) to T1 (orange).
- A self-loop (a thick purple line starting and ending at the same node) is present on T0 (light blue).
- Node T12 (pink) is isolated and has no connections.

The diagram illustrates a network of factors influencing meat consumption. The nodes and their connections are as follows:

- Green nodes (top):**
  - I try to eat less red meat (T4)
  - I am influenced by gym and muscle gain culture (T3)
  - I eat meat for protein and iron (T3)
- Blue nodes (middle):**
  - Meat is easier to prepare for a group (T0)
  - I lack confidence in cooking meat well (T0)
  - Meat is expensive compared to alternatives (T0)
- Orange nodes (bottom):**
  - My family encouraged eating meat at meals (T1)
  - Exposure to animal rights documentaries (T8)
  - I prioritize animal welfare (T8)

**Connections:**

- Purple lines connect: (T4) to (T0) [I lack confidence...], (T4) to (T3) [I am influenced...], (T3) to (T8) [I prioritize...], (T0) [Meat is expensive...] to (T1) [My family...], and (T3) [I eat meat for protein...] to (T8) [I prioritize...].
- Orange lines connect: (T1) to (T8) and (T3) [I eat meat for protein...] to (T8) [I prioritize...].

A graph with five nodes: T0 (light blue), T1 (orange), T3 (green), T4 (green), and T8 (red). The edges are: a thick purple edge between T0 and T4; an orange edge between T1 and T8; and an orange edge between T3 and T8. There are also self-loops on T3 (green) and T8 (purple).

The diagram illustrates a network of five nodes representing different beliefs or actions related to meat consumption. The nodes are connected by edges, with some edges being purple and others orange. The nodes and their connections are as follows:

- Node 1 (Red):** I have health concerns (T10)
- Node 2 (Blue):** I steam meat to eat healthier (T0)
- Node 3 (Orange):** I eat more chicken and fish (T2)
- Node 4 (Green):** I eat less red meat (T4)
- Node 5 (Green):** Meat is a source of protein (T3)

The connections between the nodes are:

- Purple line connecting T10 and T0.
- Purple line connecting T10 and T2.
- Purple line connecting T10 and T4.
- Purple line connecting T0 and T3.
- Purple line connecting T2 and T3.
- Orange line connecting T10 and T3.
- Orange line connecting T4 and T3.

The graph consists of 6 nodes and 8 edges. The nodes are labeled T0, T1, T2, T3, T4, and T10. The edges are colored either purple or orange. The structure is as follows:

- Nodes and Colors:**
  - T0: Light blue
  - T1: Blue
  - T2: Light orange
  - T3: Green
  - T4: Green
  - T10: Red
- Edges:**
  - Purple edges: (T0, T10), (T10, T4), (T4, T3), (T3, T1), (T1, T3) (forming a cycle around T3).
  - Orange edges: (T10, T2), (T2, T3), (T3, T4), (T4, T10) (forming a cycle around T10).

The diagram illustrates a network of 14 statements related to meat consumption and health. The nodes are represented by colored circles (blue, orange, or red) and are connected by edges (blue or orange lines). The statements and their corresponding node colors are as follows:

- I eat meat for protein (T3) - Blue
- I eat meat for convenience (T0) - Blue
- I am more mindful about portion sizes (T0) - Blue
- Some social contacts eat meat daily (T1) - Blue
- Some social contacts focus on health (T1) - Blue
- I eat meat regularly (T0) - Blue
- I include vegetables for health (T14) - Red
- I want variety in my diet (T6) - Orange
- I try to balance meat with vegetables (T0) - Blue

The edges represent relationships between these statements, with colors indicating different types of connections. The network shows a complex web of interrelationships, with some statements acting as central hubs (e.g., 'I eat meat regularly (T0)' and 'I try to balance meat with vegetables (T0)').
