

The diagram illustrates the relationships between 12 nodes representing different reasons for eating meat. The nodes are categorized by color: orange (T1, T11, T10, T1), blue (T0, T-1, T-2, T0), red (T9), and green (T5). Orange lines connect nodes of the same color, while purple lines connect nodes of different colors.

Nodes and their connections:

- I have no moral issues eating meat (T0)** (blue) connects to **Eating meat is a family tradition (T1)** (orange), **I was raised on a farm (T-1)** (blue), **I eat lean beef (T-2)** (blue), **Some relatives hunt and eat game meats (T1)** (orange), **I believe sometimes reduce meat consumption due to health issues (T0)** (blue), and **I eat meat at least once daily (T5)** (green).
- Eating meat is a family tradition (T1)** (orange) connects to **I have no moral issues eating meat (T0)** (blue), **I was raised on a farm (T-1)** (blue), **I am chronically anemic (T10)** (red), **I eat meat at least once daily (T5)** (green), and **I like the taste of meat (T9)** (red).
- I was raised on a farm (T-1)** (blue) connects to **I have no moral issues eating meat (T0)** (blue), **Eating meat is a family tradition (T1)** (orange), **I eat lean beef (T-2)** (blue), **Some relatives hunt and eat game meats (T1)** (orange), **I believe sometimes reduce meat consumption due to health issues (T0)** (blue), and **I eat meat at least once daily (T5)** (green).
- I am chronically anemic (T10)** (red) connects to **Eating meat is a family tradition (T1)** (orange), **I eat meat at least once daily (T5)** (green), and **I like the taste of meat (T9)** (red).
- I eat lean beef (T-2)** (blue) connects to **I have no moral issues eating meat (T0)** (blue), **I was raised on a farm (T-1)** (blue), **Some relatives hunt and eat game meats (T1)** (orange), **I believe sometimes reduce meat consumption due to health issues (T0)** (blue), and **I eat meat at least once daily (T5)** (green).
- Some relatives hunt and eat game meats (T1)** (orange) connects to **I have no moral issues eating meat (T0)** (blue), **Eating meat is a family tradition (T1)** (orange), **I was raised on a farm (T-1)** (blue), **I eat lean beef (T-2)** (blue), **I believe sometimes reduce meat consumption due to health issues (T0)** (blue), and **I eat meat at least once daily (T5)** (green).
- I like the taste of meat (T9)** (red) connects to **Eating meat is a family tradition (T1)** (orange), **I am chronically anemic (T10)** (red), **I eat meat at least once daily (T5)** (green), and **I believe sometimes reduce meat consumption due to health issues (T0)** (blue).
- I eat meat at least once daily (T5)** (green) connects to **I have no moral issues eating meat (T0)** (blue), **Eating meat is a family tradition (T1)** (orange), **I was raised on a farm (T-1)** (blue), **I am chronically anemic (T10)** (red), **I like the taste of meat (T9)** (red), and **I believe sometimes reduce meat consumption due to health issues (T0)** (blue).
- I believe sometimes reduce meat consumption due to health issues (T0)** (blue) connects to **I have no moral issues eating meat (T0)** (blue), **Eating meat is a family tradition (T1)** (orange), **I was raised on a farm (T-1)** (blue), **I eat lean beef (T-2)** (blue), **Some relatives hunt and eat game meats (T1)** (orange), **I like the taste of meat (T9)** (red), and **I eat meat at least once daily (T5)** (green).

The diagram illustrates a network of ten statements (T0-T9) related to meat consumption. The nodes are represented by colored circles with corresponding text labels. The connections between the nodes are as follows:

- Node (T0):** I try to avoid processed meats (blue circle). Connected to (T1) by a purple line, (T2) by an orange line, and (T3) by a purple line.
- Node (T1):** I am conscientious about my weight (green circle). Connected to (T0) by a purple line, (T2) by an orange line, and (T3) by a purple line.
- Node (T2):** I try to choose leaner cuts of beef (orange circle). Connected to (T0) by an orange line, (T1) by an orange line, and (T3) by a purple line.
- Node (T3):** Doctors recommend eating lean beef (blue circle). Connected to (T0) by a purple line, (T1) by a purple line, (T2) by a purple line, and (T4) by a purple line.
- Node (T4):** I eat meat every day (green circle). Connected to (T3) by a purple line and (T5) by a green line.
- Node (T5):** I enjoy the taste of meat (red circle). Connected to (T4) by a green line and (T6) by a red line.
- Node (T6):** I am chronically anemic (red circle). Connected to (T5) by a red line.
- Node (T7):** I am conscientious about my weight (green circle). No connections.
- Node (T8):** I try to choose leaner cuts of beef (orange circle). No connections.
- Node (T9):** Doctors recommend eating lean beef (blue circle). No connections.

A graph visualization showing a network of nodes and edges. The nodes are labeled T0, T1, T2, T5, T6, T9, and T10. The edges are colored purple, orange, and pink. The nodes are colored: T0 (blue), T1 (blue), T2 (orange), T5 (green), T6 (green), T9 (red), and T10 (pink). The edges are: T0-T1 (purple), T1-T2 (purple), T2-T5 (purple), T5-T9 (purple), T0-T2 (orange), T0-T6 (orange), and T10-T9 (pink). The node T10 is isolated.
