

Figure 1 is a network diagram illustrating the relationships between 10 items related to red meat consumption. The items are represented by nodes, and the connections between them are represented by edges. The nodes are color-coded: blue for items related to the 'T-1' time point and green for items related to the 'T4' time point. The edges are color-coded: orange for items related to the 'T-1' time point and purple for items related to the 'T4' time point.

The items and their corresponding time points are:

- I cook pork chops at home (T-1) (Blue node)
- My partner believes avoiding red meat is healthier (T4) (Green node)
- I eat steak when dining out (T-1) (Blue node)
- I love eating red meat (T4) (Green node)
- I want to gain or keep weight (T6) (Green node)
- I use smoked sausage when cooking (T-1) (Blue node)
- I abstain from red meat for months (T4) (Green node)
- I cook less red meat for my family (T4) (Green node)
- My partner avoids eating red meat (T4) (Green node)
- I think moderation is important (T-1) (Blue node)

The connections (edges) between the items are:

- I cook pork chops at home (T-1) is connected to I eat steak when dining out (T-1) (Orange edge).
- I eat steak when dining out (T-1) is connected to I love eating red meat (T4) (Orange edge).
- I love eating red meat (T4) is connected to I abstain from red meat for months (T4) (Orange edge).
- I want to gain or keep weight (T6) is connected to I use smoked sausage when cooking (T-1) (Purple edge).
- I use smoked sausage when cooking (T-1) is connected to I cook less red meat for my family (T4) (Purple edge).
- I cook less red meat for my family (T4) is connected to My partner avoids eating red meat (T4) (Purple edge).
- My partner avoids eating red meat (T4) is connected to I think moderation is important (T-1) (Purple edge).
- I think moderation is important (T-1) is connected to I abstain from red meat for months (T4) (Purple edge).
- I abstain from red meat for months (T4) is connected to I love eating red meat (T4) (Orange edge).
- I love eating red meat (T4) is connected to My partner believes avoiding red meat is healthier (T4) (Orange edge).
- My partner believes avoiding red meat is healthier (T4) is connected to I eat steak when dining out (T-1) (Orange edge).

```
graph LR; T6((T-6)) --- T1((T-1)); T1 --- T4((T-4))
```

Meat quality and sourcing are important to me (T0)

Family and friends eat meat regularly (T1)

I avoid overdoing red meat consumption (T4)

I incorporate chicken and seafood weekly (T2)

I plan meals to accommodate my wife's diet (T0)

I try to eat meat in moderation (T1)

My wife avoids pork for health reasons (T1)

I eat meat regularly (T0)
