The diagram illustrates a network of seven nodes, each representing a different factor. The nodes are labeled as follows:

- T6 (green): I am conscientious about my weight
- T10 (blue): I try to avoid processed meats
- T12 (orange): I try to choose leaner cuts of beef
- T11 (blue): Doctors recommend eating lean beef
- T9 (red): I enjoy the taste of meat
- T5 (green): I eat meat every day
- T10 (red): I am chronically anemic

The nodes are interconnected by purple lines, forming a complex network. The connections are as follows:

- T6 is connected to T10, T12, T11, and T5.
- T10 (blue) is connected to T6, T12, T11, T9, and T10 (red).
- T12 is connected to T6, T10 (blue), T11, and T5.
- T11 is connected to T6, T10 (blue), T12, T9, and T5.
- T9 is connected to T10 (blue), T11, T5, and T10 (red).
- T5 is connected to T6, T10 (blue), T12, T11, and T9.
- T10 (red) is connected to T10 (blue), T9, and T5.

The diagram illustrates the relationships between 10 statements (nodes) related to meat consumption. The nodes are categorized by color: blue (T-1, T0, T7), orange (T1, T2), and green (T5). The edges are colored purple or orange, representing different types of relationships.

Nodes and their descriptions:

- Blue nodes (T-1, T0, T7):**
 - Eating meat is a habit for me (T-1)
 - Eating meat feels natural to me (T-1)
 - I have always eaten and cooked with meat (T0)
 - I get bored with the same meals (T0)
 - I enjoy the challenge of vegetarian cooking (T7)
- Orange nodes (T1, T2):**
 - I eat a lot of chicken (T2)
 - My parents cooked with meat (T1)
 - Most friends and family eat meat (T1)
- Green nodes (T5):**
 - I eat meat 1-2 times a day (T5)

Relationships (Edges):

- Purple edges:**
 - Eating meat is a habit for me (T-1) is connected to Eating meat feels natural to me (T-1), I have always eaten and cooked with meat (T0), I eat a lot of chicken (T2), and I eat meat 1-2 times a day (T5).
 - Eating meat feels natural to me (T-1) is connected to I have always eaten and cooked with meat (T0).
 - I have always eaten and cooked with meat (T0) is connected to I get bored with the same meals (T0) and I enjoy the challenge of vegetarian cooking (T7).
 - I eat a lot of chicken (T2) is connected to I eat meat 1-2 times a day (T5).
 - Most friends and family eat meat (T1) is connected to I get bored with the same meals (T0).
 - I get bored with the same meals (T0) is connected to I enjoy the challenge of vegetarian cooking (T7).
- Orange edges:**
 - I have always eaten and cooked with meat (T0) is connected to I reduce meat when it is expensive (T0).
 - I reduce meat when it is expensive (T0) is connected to I enjoy the challenge of vegetarian cooking (T7).

A graph diagram with nodes T-1, T0, T1, T2, T5, and T7. T-1 is blue, T0 is light blue, T1 and T2 are orange, T5 and T7 are green. Edges connect T-1 to T2, T-1 to T1, T1 to T0, and T0 to T7. Thick green edges connect T-1 to T0 and T0 to T7. Self-loops are on T-1 and T1.

The diagram illustrates a network of beliefs and attitudes related to meat consumption. The nodes represent different stages or aspects of this process, and the lines represent the relationships between them.

- Nodes (Stages/Attitudes):**
 - I eat meat with most meals (T0)** (Blue circle)
 - I was raised eating meat (T-1)** (Blue circle)
 - Meat tastes good to me (T0)** (Blue circle)
 - Eating meat feels normal to me (T-1)** (Blue circle)
 - People around me eat meat similarly (T1)** (Orange circle)
 - I dislike how animals are treated (T8)** (Red circle)
- Relationships (Lines):**
 - Thin purple lines connect the first four blue nodes in a complex web, indicating interrelated beliefs and attitudes.
 - Thick orange lines connect each of the first four blue nodes to the red node, 'I dislike how animals are treated (T8)', suggesting a strong, direct relationship between these attitudes and the final stance on animal treatment.

The diagram illustrates the relationships between 12 statements related to plant-based eating. The nodes are colored based on their cluster assignment:

- Red (T12):** I am concerned about climate change
- Blue (T0, T1, T7, T10, T11):**
 - I care about the health of animals
 - I plan weekly menus with my husband
 - My husband shares meat with his friends
 - I eat mostly vegetarian dinners
 - My daughter is a vegetarian
 - Meat is part of my family's culture
 - Other family values: traditional meals, less meat
- Green (T8):** I care about the health of animals
- Orange (T3, T4, T5, T6):**
 - Protein focus among young adults
 - I eat mostly vegetarian dinners
 - My daughter is a vegetarian
 - Meat is part of my family's culture

Edges connect nodes within and between clusters, representing the relationships between the statements.

The diagram illustrates the relationships between 14 statements (T0 to T14) related to vegetarianism. The nodes are represented by colored circles with text labels and IDs. The edges are purple lines connecting the nodes, indicating relationships between them.

Nodes and their labels:

- T0 (Blue):** I eat small portions of meat while traveling
- T1 (Orange):** I cook vegetarian meals at home
- T2 (Green):** Meat eating is the culture and tradition
- T3 (Orange):** Requires meat
- T4 (Pink):** believe plant-based is healthier
- T5 (Orange):** Social conventions
- T6 (Green):** I am concerned about animal welfare
- T7 (Orange):** I cook vegetarian meals at home
- T8 (Green):** I am concerned about animal welfare
- T9 (Blue):** I eat small portions of meat while traveling
- T10 (Blue):** I eat small portions of meat while traveling
- T11 (Green):** Meat eating is the culture and tradition
- T12 (Red):** I am concerned about climate change
- T13 (Orange):** Requires meat
- T14 (Pink):** believe plant-based is healthier

Relationships (Edges):

- T0 is connected to T1, T2, T3, T4, T5, T6, T7, T8, T9, T10, T11, T12, T13, and T14.
- T1 is connected to T0, T2, T3, T4, T5, T6, T7, T8, T9, T10, T11, T12, T13, and T14.
- T2 is connected to T0, T1, T3, T4, T5, T6, T7, T8, T9, T10, T11, T12, T13, and T14.
- T3 is connected to T0, T1, T2, T4, T5, T6, T7, T8, T9, T10, T11, T12, T13, and T14.
- T4 is connected to T0, T1, T2, T3, T5, T6, T7, T8, T9, T10, T11, T12, T13, and T14.
- T5 is connected to T0, T1, T2, T3, T4, T6, T7, T8, T9, T10, T11, T12, T13, and T14.
- T6 is connected to T0, T1, T2, T3, T4, T5, T7, T8, T9, T10, T11, T12, T13, and T14.
- T7 is connected to T0, T1, T2, T3, T4, T5, T6, T8, T9, T10, T11, T12, T13, and T14.
- T8 is connected to T0, T1, T2, T3, T4, T5, T6, T7, T9, T10, T11, T12, T13, and T14.
- T9 is connected to T0, T1, T2, T3, T4, T5, T6, T7, T8, T10, T11, T12, T13, and T14.
- T10 is connected to T0, T1, T2, T3, T4, T5, T6, T7, T8, T9, T11, T12, T13, and T14.
- T11 is connected to T0, T1, T2, T3, T4, T5, T6, T7, T8, T9, T10, T12, T13, and T14.
- T12 is connected to T0, T1, T2, T3, T4, T5, T6, T7, T8, T9, T10, T11, T13, and T14.
- T13 is connected to T0, T1, T2, T3, T4, T5, T6, T7, T8, T9, T10, T11, T12, and T14.
- T14 is connected to T0, T1, T2, T3, T4, T5, T6, T7, T8, T9, T10, T11, T12, T13, and T0.

    T11 --- T0((T0))
    T0 --- T3_2((T3))
    T11 --- T1((T1))

```

Meat tastes good to me (T0)

My friends and family eat meat (T1)

Getting protein from meat is easy (T3)

I eat what my family makes for dinner (T1)

I eat whatever meat is available (T0)

Eating meat is a family habit (T1)

The diagram illustrates a network of relationships between 10 nodes. The nodes are represented by colored circles and text labels with time points in parentheses. The edges are represented by lines connecting the nodes, with some edges highlighted in orange and others in purple. The nodes are distributed across the diagram, with some clustered together and others more isolated. The edges represent the strength or type of relationship between the nodes, with orange edges indicating a stronger or more direct relationship than purple edges.

Nodes (Time Points):

- I am concerned about my health (T10) (Red)
- I eat more chicken and turkey (T2) (Green)
- I eat red meat once a week (T4) (Green)
- Restaurants promote red meat as special (T4) (Green)
- Group outings are seen as special occasions (T1) (Orange)
- I stopped eating lunch meats during COVID (T-1) (Blue)
- Friends share healthy low-meat recipes (T1) (Orange)
- Community members try to eat less red meat (T4) (Green)
- My doctor advises reducing red meat (T4) (Green)
- I eat fish once a week (T2) (Orange)

Edges (Relationships):

- Strong (Orange) edges:
 - I am concerned about my health (T10) to I eat red meat once a week (T4)
 - I am concerned about my health (T10) to Restaurants promote red meat as special (T4)
 - Restaurants promote red meat as special (T4) to I eat red meat once a week (T4)
 - My doctor advises reducing red meat (T4) to I eat red meat once a week (T4)
- Weak (Purple) edges:
 - I am concerned about my health (T10) to I eat more chicken and turkey (T2)
 - I am concerned about my health (T10) to I stopped eating lunch meats during COVID (T-1)
 - I am concerned about my health (T10) to Friends share healthy low-meat recipes (T1)
 - I am concerned about my health (T10) to Community members try to eat less red meat (T4)
 - I am concerned about my health (T10) to I eat fish once a week (T2)
 - I eat more chicken and turkey (T2) to I eat red meat once a week (T4)
 - I eat more chicken and turkey (T2) to I stopped eating lunch meats during COVID (T-1)
 - I eat more chicken and turkey (T2) to Friends share healthy low-meat recipes (T1)
 - I eat more chicken and turkey (T2) to Community members try to eat less red meat (T4)
 - I eat more chicken and turkey (T2) to I eat fish once a week (T2)
 - I eat red meat once a week (T4) to I stopped eating lunch meats during COVID (T-1)
 - I eat red meat once a week (T4) to Community members try to eat less red meat (T4)
 - I eat red meat once a week (T4) to I eat fish once a week (T2)
 - Restaurants promote red meat as special (T4) to I stopped eating lunch meats during COVID (T-1)
 - Restaurants promote red meat as special (T4) to Community members try to eat less red meat (T4)
 - Restaurants promote red meat as special (T4) to I eat fish once a week (T2)
 - Group outings are seen as special occasions (T1) to I stopped eating lunch meats during COVID (T-1)
 - Group outings are seen as special occasions (T1) to Community members try to eat less red meat (T4)
 - Group outings are seen as special occasions (T1) to I eat fish once a week (T2)
 - I stopped eating lunch meats during COVID (T-1) to Community members try to eat less red meat (T4)
 - I stopped eating lunch meats during COVID (T-1) to I eat fish once a week (T2)
 - Friends share healthy low-meat recipes (T1) to I eat red meat once a week (T4)
 - Friends share healthy low-meat recipes (T1) to I stopped eating lunch meats during COVID (T-1)
 - Friends share healthy low-meat recipes (T1) to Community members try to eat less red meat (T4)
 - Friends share healthy low-meat recipes (T1) to I eat fish once a week (T2)
 - Community members try to eat less red meat (T4) to I eat red meat once a week (T4)
 - Community members try to eat less red meat (T4) to I stopped eating lunch meats during COVID (T-1)
 - Community members try to eat less red meat (T4) to I eat fish once a week (T2)

A network diagram with a central node T10 (red) at the top left. It is connected to five other nodes: T1 (orange), T2 (orange), T4 (green), T-1 (blue), and an unlabeled green node. The connections are colored green and purple. The green connections are between T10 and T1, T10 and T2, and T10 and T4. The purple connections are between T10 and T-1, T1 and T-1, T2 and T-1, and T4 and T-1.

The diagram illustrates the relationships between 12 nodes, which are categorized by color and represent different concerns or behaviors:

- Red Nodes (Health Concerns):**
 - I am concerned about health (T10)
 - I eat more poultry and less pork (T0)
 - I want to reduce inflammation (T10)
 - I want to manage my weight (T6)
 - I am concerned about cancer risk (T10)
- Green Nodes (Environmental/Ethical Concerns):**
 - Friends also reduce red meat consumption (T4)
 - I have reduced red meat consumption (T4)
 - I am concerned about greenhouse gas emissions (T12)
 - I have meat-free days each week (T5)
- Orange Node (Social Concerns):**
 - Community values health highly (T1)

The connections between the nodes are as follows:

- Community values health highly (T1)** is connected to **I am concerned about health (T10)** and **I have reduced red meat consumption (T4)**.
- Friends also reduce red meat consumption (T4)** is connected to **I have reduced red meat consumption (T4)** and **I am concerned about greenhouse gas emissions (T12)**.
- I have reduced red meat consumption (T4)** is connected to **I am concerned about health (T10)**, **I eat more poultry and less pork (T0)**, **I want to reduce inflammation (T10)**, **I want to manage my weight (T6)**, **I am concerned about cancer risk (T10)**, and **I have meat-free days each week (T5)**.
- I am concerned about greenhouse gas emissions (T12)** is connected to **I have meat-free days each week (T5)**.
- I eat more poultry and less pork (T0)** is connected to **I want to manage my weight (T6)**.
- I want to reduce inflammation (T10)** is connected to **I want to manage my weight (T6)**.
- I want to manage my weight (T6)** is connected to **I am concerned about cancer risk (T10)**.
- I am concerned about cancer risk (T10)** is connected to **I have meat-free days each week (T5)**.

The graph consists of 7 nodes and 10 weighted edges. The nodes are labeled T0, T1, T4, T5, T6, T10, and T12. The edges and their approximate weights are:

- T1 to T4: 10
- T1 to T0: 10

The diagram illustrates a network of relationships between six nodes, each representing a different factor. The nodes are: 'I want to gain weight (T6)' (green), 'I cook meat at home (T-1)' (blue), 'I eat a high protein diet (T3)' (orange), 'I appreciate the texture of meat (T9)' (red), 'I have health motivations (T6)' (green), and 'I have price concerns (T6)' (green). The nodes are connected by lines: purple lines connect (T6) to (T-1), (T-1) to (T3), (T-1) to (T9), (T3) to (T9), (T6) to (T9), (T6) to (T3), (T6) to (T-1), (T6) to (T9), and (T6) to (T3); orange lines connect (T6) to (T3) and (T9) to (T0).

A graph with five nodes: T-1 (orange), T3 (orange), T6 (green), T0 (blue), and T9 (red). The edges are: T6-T-1, T6-T3, T6-T0 (thick), T-1-T3, T3-T0, and T0-T9. The edge between T0 and T9 is orange, while all other edges are light blue.

The diagram illustrates a network of 12 nodes representing different factors, connected by edges. The nodes are colored red, orange, green, or blue. The edges are colored purple or orange. The nodes are: 'I need a source of protein (T3)' (orange), 'I enjoy the taste of meat (T9)' (red), 'I value the texture of meat (T9)' (red), 'I dislike vegetables (T14)' (purple), 'I eat meat almost every day (T5)' (green), 'I have reduced meat per meal (T0)' (blue), 'I have cut back on beef (T4)' (blue), 'I eat tofu as alternate protein (T-1)' (blue), 'I am environmentally conscious (T12)' (red), 'My wife is environmentally conscious (T12)' (red), and 'I eat meat almost every day (T5)' (green). Edges connect nodes, with orange edges highlighting specific relationships.

The diagram illustrates a network of beliefs and attitudes related to meat consumption and health. The nodes and their connections are as follows:

- Nodes:**
 - I eat beef every day (T11)** (Red)
 - My partner had high cholesterol levels (T10)** (Green)
 - I reduced meat due to cholesterol concerns (T0)** (Light Blue)
 - I want to reduce cholesterol (T10)** (Green)
 - I was raised to eat meat with meals (T-1)** (Dark Blue)
 - Eating meat is a family habit (T1)** (Orange)
 - I eat meat in moderation (T1)** (Blue)
 - I want dietary iron and protein (T3)** (Orange)
 - I want a balanced diet (T6)** (Green)
 - I eat meat every day (T11)** (Red)
- Connections:**
 - Orange lines:** Connect 'I eat beef every day (T11)' to 'My partner had high cholesterol levels (T10)', 'I reduced meat due to cholesterol concerns (T0)', and 'I want to reduce cholesterol (T10)'.
 - Green lines:** Connect 'My partner had high cholesterol levels (T10)' to 'I reduced meat due to cholesterol concerns (T0)', 'I want to reduce cholesterol (T10)', and 'I want a balanced diet (T6)'.
 - Light blue line:** Connects 'I reduced meat due to cholesterol concerns (T0)' to 'I want to reduce cholesterol (T10)'.
 - Dark blue line:** Connects 'I was raised to eat meat with meals (T-1)' to 'I eat meat in moderation (T1)'.
 - Orange line:** Connects 'Eating meat is a family habit (T1)' to 'I eat meat in moderation (T1)'.
 - Blue line:** Connects 'I eat meat in moderation (T1)' to 'I want dietary iron and protein (T3)'.
 - Green line:** Connects 'I want dietary iron and protein (T3)' to 'I want a balanced diet (T6)'.
 - Purple lines:** Connect 'I eat beef every day (T11)' to 'I reduced meat due to cholesterol concerns (T0)', 'I want to reduce cholesterol (T10)', 'I was raised to eat meat with meals (T-1)', 'Eating meat is a family habit (T1)', 'I eat meat in moderation (T1)', and 'I want a balanced diet (T6)'. Additionally, 'I reduced meat due to cholesterol concerns (T0)' connects to 'I was raised to eat meat with meals (T-1)', 'Eating meat is a family habit (T1)', 'I eat meat in moderation (T1)', and 'I want a balanced diet (T6)'. 'I want to reduce cholesterol (T10)' connects to 'I was raised to eat meat with meals (T-1)', 'Eating meat is a family habit (T1)', 'I eat meat in moderation (T1)', and 'I want a balanced diet (T6)'. 'I was raised to eat meat with meals (T-1)' connects to 'Eating meat is a family habit (T1)', 'I eat meat in moderation (T1)', and 'I want a balanced diet (T6)'. 'Eating meat is a family habit (T1)' connects to 'I eat meat in moderation (T1)' and 'I want a balanced diet (T6)'. 'I eat meat in moderation (T1)' connects to 'I want a balanced diet (T6)'.

The diagram illustrates a network of factors influencing meat consumption. The nodes and their connections are as follows:

- Nodes:**
 - Orange nodes (Cultural/Habit):** "Eating meat is a cultural habit in my family (T1)", "I eat meat for protein and iron (T3)", "I eat meat daily with moderation (T-1)", "My social contacts eat meat for nutrition (T1)".
 - Green nodes (Health):** "My spouse had elevated cholesterol (T10)", "I try to reduce cholesterol by eating less meat (T10)".
 - Blue node (Social):** "People I know reduce meat for health reasons (T0)".
 - Purple node (General):** "I eat meat for protein and iron (T3)".
- Edges (Relationships):**
 - Orange edges (Strong):** Connect "Eating meat is a cultural habit in my family (T1)" to "I eat meat for protein and iron (T3)", "I eat meat daily with moderation (T-1)", and "My social contacts eat meat for nutrition (T1)". Connect "I eat meat for protein and iron (T3)" to "I eat meat daily with moderation (T-1)" and "My social contacts eat meat for nutrition (T1)". Connect "I eat meat daily with moderation (T-1)" to "My social contacts eat meat for nutrition (T1)".
 - Purple edges (Weak):** Connect "My spouse had elevated cholesterol (T10)" to "I try to reduce cholesterol by eating less meat (T10)". Connect "I try to reduce cholesterol by eating less meat (T10)" to "Eating meat is a cultural habit in my family (T1)", "I eat meat for protein and iron (T3)", "I eat meat daily with moderation (T-1)", and "My social contacts eat meat for nutrition (T1)". Connect "Eating meat is a cultural habit in my family (T1)" to "I eat meat for protein and iron (T3)". Connect "I eat meat for protein and iron (T3)" to "I eat meat daily with moderation (T-1)". Connect "I eat meat daily with moderation (T-1)" to "My social contacts eat meat for nutrition (T1)".

A graph with five nodes: T10 (green), T1 (orange), T-1 (blue), T0 (light blue), and T3 (orange). Edges connect T10 to T1 and T-1; T1 to T-1 and T3; T-1 to T0 and T3; and T0 to T3. Self-loops are present on T10 and T1. Edges are colored purple or orange.

The diagram illustrates the following network structure:

- Nodes:**
 - Blue nodes: "I want to support local sustainable farms (T0)", "I seek high quality meat (T0)", "Meat prices are expensive (T0)", "I am motivated by health (T6)".
 - Orange nodes: "I am motivated by health (T6)", "I want to support local sustainable farms (T0)", "Meat prices are expensive (T0)", "I am motivated by feeling satisfied (T6)", "I eat meat most days (T5)".
 - Green nodes: "I have vegetarian dinners some days (T7)", "I balance meat with grains and beans (T0)", "I enjoy the taste of meat (T9)".
- Connections:**
 - Thick orange lines connect:
 - "I am motivated by health (T6)" to "I want to support local sustainable farms (T0)".
 - "I want to support local sustainable farms (T0)" to "Meat prices are expensive (T0)".
 - "I am motivated by feeling satisfied (T6)" to "I eat meat most days (T5)".
 - Thin purple lines connect:
 - "I am motivated by health (T6)" to "I seek high quality meat (T0)".
 - "I seek high quality meat (T0)" to "Meat prices are expensive (T0)".
 - "I seek high quality meat (T0)" to "I am motivated by feeling satisfied (T6)".
 - "Meat prices are expensive (T0)" to "I am motivated by feeling satisfied (T6)".
 - "I am motivated by feeling satisfied (T6)" to "I enjoy the taste of meat (T9)".
 - "I enjoy the taste of meat (T9)" to "I eat meat most days (T5)".
 - "I eat meat most days (T5)" to "I balance meat with grains and beans (T0)".
 - "I balance meat with grains and beans (T0)" to "I have vegetarian dinners some days (T7)".
 - "I have vegetarian dinners some days (T7)" to "I am motivated by health (T6)".
 - "I have vegetarian dinners some days (T7)" to "I seek high quality meat (T0)".

A graph with five nodes: T0 (blue), T6 (orange), T7 (green), T5 (orange), and T9 (green). Edges connect T0-T7, T0-T6, T0-T9, T6-T9, T7-T5, and T5-T9. Node T0 has a small green circle on top, and T6 has a small orange circle on top.

The diagram illustrates a network of factors influencing meat consumption. The nodes and their connections are as follows:

- I focus on reducing meat consumption (T0)** (Blue circle) is connected to **I eat less meat to reduce my general consumption of meat (T4)**, **I limit my meat consumption if it is healthier (T5)**, **I eat less meat because of the cost of beef (T6)**, and **Environmental concerns about beef production (T0)**.
- I eat less meat to reduce my general consumption of meat (T4)** (Blue circle) is connected to **I focus on reducing meat consumption (T0)**, **I limit my meat consumption if it is healthier (T5)**, **I eat less meat because of the cost of beef (T6)**, and **Environmental concerns about beef production (T0)**.
- I limit my meat consumption if it is healthier (T5)** (Green circle) is connected to **I focus on reducing meat consumption (T0)**, **I eat less meat to reduce my general consumption of meat (T4)**, **I eat less meat because of the cost of beef (T6)**, and **I avoid meat (T11)**.
- I eat less meat because of the cost of beef (T6)** (Light green circle) is connected to **I focus on reducing meat consumption (T0)**, **I eat less meat to reduce my general consumption of meat (T4)**, **I limit my meat consumption if it is healthier (T5)**, and **I avoid meat (T11)**.
- I avoid meat (T11)** (Red circle) is connected to **I limit my meat consumption if it is healthier (T5)** and **I eat less meat because of the cost of beef (T6)**.
- Environmental concerns about beef production (T0)** (Blue circle) is connected to **I focus on reducing meat consumption (T0)**, **I eat less meat to reduce my general consumption of meat (T4)**, and **I limit my meat consumption if it is healthier (T5)**.
