

The diagram illustrates a network of factors influencing meat consumption. The nodes and their connections are as follows:

- Nodes:**
 - Blue:** "I like to try new meats (T0)"
 - Orange:** "Family usually eats chicken together (T2)", "Chicken is easy to cook (T2)", "Chicken is familiar in my meals (T2)", "Limited fish options available (T2)"
 - Green:** "I eat meat four to five days weekly (T5)"
 - Red:** "I enjoy the taste of meat (T9)"
 - Unlabeled:** One blue node at the top and one green node at the bottom.
- Connections:**
 - Orange lines:** Connect "I like to try new meats (T0)" to "Family usually eats chicken together (T2)", "Chicken is easy to cook (T2)", and "Chicken is familiar in my meals (T2)".
 - Purple lines:** Connect "Family usually eats chicken together (T2)" to "I eat meat four to five days weekly (T5)". Connect "Chicken is easy to cook (T2)" to "I eat meat four to five days weekly (T5)". Connect "Chicken is familiar in my meals (T2)" to "I eat meat four to five days weekly (T5)". Connect "Limited fish options available (T2)" to "I eat meat four to five days weekly (T5)". Connect "I enjoy the taste of meat (T9)" to "I eat meat four to five days weekly (T5)".

A graph with five nodes: T0 (light blue), T2 (orange), T5 (green), T9 (red), and an unlabeled purple node. Edges connect T0 to T2 (thick orange), T0 to T9 (thin purple), T2 to T5 (thin purple), T2 to T9 (thick purple), and T9 to T5 (thin purple).
