

Figure 1 is a network diagram illustrating relationships between nodes representing health-related statements. The nodes are colored blue, green, or orange, and the edges are colored purple or orange. The nodes and their connections are as follows:

- Blue Nodes:**
 - "I try to limit beef and pork (T-1)"
 - "I believe lean meats are healthier (T-1)"
 - "I am encouraged by my sister (T1)"
 - "I have high blood pressure (T-1)"
- Green Node:**
 - "I look for alternative protein sources (T10)"
- Orange Node:**
 - "My family eats what I cook (T1)"

The edges represent relationships between these nodes:

- A purple edge connects "I try to limit beef and pork (T-1)" and "I believe lean meats are healthier (T-1)".
- A purple edge connects "I believe lean meats are healthier (T-1)" and "I look for alternative protein sources (T10)".
- A purple edge connects "I look for alternative protein sources (T10)" and "I have high blood pressure (T-1)".
- An orange edge connects "I have high blood pressure (T-1)" and "My family eats what I cook (T1)".
- An orange edge connects "My family eats what I cook (T1)" and "I am encouraged by my sister (T1)".
- An orange edge connects "I am encouraged by my sister (T1)" and "I have high blood pressure (T-1)".

A diagram illustrating a sequence of three nodes: T10, T-1, and T1. T10 is a green circle at the bottom left. T-1 is a blue circle at the top center. T1 is a light blue circle at the top right. A purple line connects T10 to T-1, and an orange line connects T-1 to T1.

The diagram illustrates a network of health-related statements and their relationships. The nodes are represented by colored circles with text labels and associated identifiers in parentheses. The edges are colored lines connecting the nodes.

- Nodes:**
 - Orange:** "I am concerned about kidney health (T6)", "I am eating less beef and pork (T7)", "I have seen excellent results reducing meat (T7)"
 - Blue:** "I have high blood pressure (T-1)", "I prefer lean meats like chicken (T-1)"
 - Green:** "I aim for a healthier diet (T8)", "My family values eating in moderation (T1)"
 - Purple:** "I want to lose weight (T8)"
 - Grey:** "My family eats whatever I cook (T1)"
- Edges:**
 - Green:** Connects "I am concerned about kidney health (T6)" to "I have high blood pressure (T-1)". Connects "I aim for a healthier diet (T8)" to "My family values eating in moderation (T1)". Connects "My family values eating in moderation (T1)" to "My family eats whatever I cook (T1)".
 - Purple:** Connects "I want to lose weight (T8)" to "I have seen excellent results reducing meat (T7)". Connects "I am eating less beef and pork (T7)" to "I prefer lean meats like chicken (T-1)".
