

The diagram illustrates the relationships between 11 statements related to meat consumption. The nodes are represented by colored circles, and the edges are represented by colored lines. The statements and their corresponding node colors are as follows:

- Eating meat is a habit for me (T-1) (Blue)
- Eating meat feels natural to me (T-1) (Blue)
- I eat a lot of chicken (T-1) (Blue)
- I have always eaten and cooked with meat (T18) (Red)
- My parents cooked with meat (T1) (Blue)
- I eat meat 1-2 times a day (T15) (Green)
- Most friends and family eat meat (T9) (Green)
- I get bored with the same meals (T-1) (Blue)
- I reduce meat when it is expensive (T-1) (Blue)
- I enjoy the challenge of vegetarian cooking (T4) (Orange)

The edges represent the relationships between these statements, categorized by color:

- Purple Edges:**
 - Eating meat is a habit for me (T-1) to Eating meat feels natural to me (T-1)
 - Eating meat is a habit for me (T-1) to I eat a lot of chicken (T-1)
 - Eating meat is a habit for me (T-1) to I have always eaten and cooked with meat (T18)
 - Eating meat is a habit for me (T-1) to My parents cooked with meat (T1)
 - Eating meat is a habit for me (T-1) to I eat meat 1-2 times a day (T15)
 - Eating meat is a habit for me (T-1) to Most friends and family eat meat (T9)
 - Eating meat is a habit for me (T-1) to I get bored with the same meals (T-1)
 - Eating meat is a habit for me (T-1) to I reduce meat when it is expensive (T-1)
 - Eating meat is a habit for me (T-1) to I enjoy the challenge of vegetarian cooking (T4)
 - Eating meat feels natural to me (T-1) to I have always eaten and cooked with meat (T18)
 - Eating meat feels natural to me (T-1) to My parents cooked with meat (T1)
 - Eating meat feels natural to me (T-1) to I eat meat 1-2 times a day (T15)
 - Eating meat feels natural to me (T-1) to Most friends and family eat meat (T9)
 - Eating meat feels natural to me (T-1) to I get bored with the same meals (T-1)
 - Eating meat feels natural to me (T-1) to I reduce meat when it is expensive (T-1)
 - Eating meat feels natural to me (T-1) to I enjoy the challenge of vegetarian cooking (T4)
 - I eat a lot of chicken (T-1) to I eat meat 1-2 times a day (T15)
 - I eat a lot of chicken (T-1) to Most friends and family eat meat (T9)
 - I eat a lot of chicken (T-1) to I get bored with the same meals (T-1)
 - I eat a lot of chicken (T-1) to I reduce meat when it is expensive (T-1)
 - I eat a lot of chicken (T-1) to I enjoy the challenge of vegetarian cooking (T4)
 - I have always eaten and cooked with meat (T18) to My parents cooked with meat (T1)
 - I have always eaten and cooked with meat (T18) to I get bored with the same meals (T-1)
 - I have always eaten and cooked with meat (T18) to I reduce meat when it is expensive (T-1)
 - I have always eaten and cooked with meat (T18) to I enjoy the challenge of vegetarian cooking (T4)
 - My parents cooked with meat (T1) to I get bored with the same meals (T-1)
 - My parents cooked with meat (T1) to I reduce meat when it is expensive (T-1)
 - My parents cooked with meat (T1) to I enjoy the challenge of vegetarian cooking (T4)
 - I eat meat 1-2 times a day (T15) to Most friends and family eat meat (T9)
 - I eat meat 1-2 times a day (T15) to I get bored with the same meals (T-1)
 - I eat meat 1-2 times a day (T15) to I reduce meat when it is expensive (T-1)
 - I eat meat 1-2 times a day (T15) to I enjoy the challenge of vegetarian cooking (T4)
 - Most friends and family eat meat (T9) to I get bored with the same meals (T-1)
 - Most friends and family eat meat (T9) to I reduce meat when it is expensive (T-1)
 - Most friends and family eat meat (T9) to I enjoy the challenge of vegetarian cooking (T4)
 - I get bored with the same meals (T-1) to I reduce meat when it is expensive (T-1)
 - I get bored with the same meals (T-1) to I enjoy the challenge of vegetarian cooking (T4)
 - I reduce meat when it is expensive (T-1) to I enjoy the challenge of vegetarian cooking (T4)
- Orange Edges:**
 - I have always eaten and cooked with meat (T18) to I reduce meat when it is expensive (T-1)
 - I have always eaten and cooked with meat (T18) to I enjoy the challenge of vegetarian cooking (T4)
 - My parents cooked with meat (T1) to I reduce meat when it is expensive (T-1)
 - My parents cooked with meat (T1) to I enjoy the challenge of vegetarian cooking (T4)
 - I eat meat 1-2 times a day (T15) to I reduce meat when it is expensive (T-1)
 - I eat meat 1-2 times a day (T15) to I enjoy the challenge of vegetarian cooking (T4)
 - Most friends and family eat meat (T9) to I reduce meat when it is expensive (T-1)
 - Most friends and family eat meat (T9) to I enjoy the challenge of vegetarian cooking (T4)
 - I get bored with the same meals (T-1) to I reduce meat when it is expensive (T-1)
 - I get bored with the same meals (T-1) to I enjoy the challenge of vegetarian cooking (T4)
 - I reduce meat when it is expensive (T-1) to I enjoy the challenge of vegetarian cooking (T4)

Figure 1 is a network diagram illustrating the relationships between five variables. The variables are represented by colored circles: T19 (red), T23 (purple), T27 (grey), T1 (blue), and T5 (orange). The variables are: 'I eat meat with most meals (T19)', 'I was raised eating meat (T23)', 'People around me eat meat similarly (T27)', 'Meat tastes good to me (T1)', and 'Eating meat feels normal to me (T1)'. The relationships are shown by lines: purple lines connect T19 to T23, T23 to T27, T27 to T1, and T1 to T19; orange lines connect T19 to T5, T23 to T5, T27 to T5, T1 to T5, and T1 to T5.

A network graph with five nodes: T19 (red), T23 (purple), T27 (grey), T-1 (blue), and T5 (orange). The graph shows connections between these nodes, with some edges highlighted in purple and others in orange. The connections are as follows:

- T19 is connected to T23 and T-1 by thick purple lines.
- T23 is connected to T-1 and T27 by thick purple lines.
- T-1 is connected to T27 by a thick purple line.
- T19 is connected to T-1 by a thick orange line.
- T-1 is connected to T5 by a thick orange line.
- T23 is connected to T5 by a thick orange line.
- T27 is connected to T5 by a thick orange line.
- T-1 has a self-loop (a thick purple line connecting it to itself).
